**Preliminary Showing  
Women's Garments**

Fashions from London, Berlin, New York, Paris  
We ask you to consider this announcement a personal invitation to visit our preliminary showing of women's garments tomorrow. We have not depended alone on New York (although we must confess that some of the most fetching creations are the work of American designers.) But our buyers have reached deeper into sources of fashion and provided the leading styles from such fashion centers as Paris, London and Berlin.

**You Would See Almost a Million Waists**  
Taking a stroll through our waist department you will cease to wonder why every body buys shirts waists at Jacoby Bros. Here are tables and tables of waists, made of every material in every pattern and color, and style that your imagination could picture. And prices are so wonderfully small. Special lots of waists on sale Monday at these prices: \$1.45, \$2.50, \$4.50, \$8.75.

**Women's Suits \$14.95, Values up to \$24.50**  
As an extra attraction for Monday we shall place on sale 15 new spring suits including nearly all the correct models. They come in Panama, Serges, Cheviots, and many fancy mixtures with the pretty blouse effect or hip length jackets. These are suitably trimmed with taffeta and braid and the skirts are in the favorite pleated effects trimmed to correspond with jackets. These suits were intended to sell as high as \$24.50. Your choice \$14.95.

**Very Stylish Black Silk Jackets**  
Much interest will be centered on this new showing of stylish black silk jackets, coming in the season's most exclusive styles. Made in three-quarter length or full length. Materials, taffeta or pique de soie. They are made charmingly pretty with shirred or pleated fronts and back. Still others come with loose back belts. Almost no end to the variety, and prices range as low as \$14.95, while more elaborate qualities are priced up to \$27.50.

**Women's New Spring Cravenette Rain Coats**  
Fashion almost insists that a rain coat be part of a woman's wardrobe the coming season. In readiness for the demand we have gathered all the smartest and newest styles, strictly man tailored. They are quite as suitable for sun-bath as rain, and may be worn day or night. Come in grey, tan, brown, blue, and black. Every modification of style to please every fancy. Prices \$9.50 to \$24.50.

**An Exhaustive Line of Walking Skirts \$7.50**  
We know that you will be interested in this special line of walking skirts comprising over thirty different styles. We have priced them \$6.50 although your first glance will assure you that they would readily enough bring much more. Made of Panama, Sicilian, mohair, serges, novelty mixtures, in brown, blue, grey, black, and white.

**New Walking Skirts**  
These come in the most practical, stylish materials such as Panama, Mohair, Malines, and fancy tweeds. They are made in the prettiest new styles with pleated effects trimmed in graduated straps. Also the fancy umbrella skirt with taffeta hip trimmings on seams. A complete line of colors and styles. Prices \$4.95 up to \$18.50.

**American Prints, Special 5c**  
Tomorrow we are going to sell several thousand yards of standard American prints at 5c a yard. These come in a good range of patterns, fast colors. You all know the material. 30 yard limit to each patron.  
**16 2-3c Madras Cheviots**  
A large line of these shirt waist suits in pongee, bourette, nicker suits, dotted Japanese, crepes, Panama, etc. All the stylish shades and patterns.  
**12 1-2c Yd.**  
This is our early showing of the popular silk gowns here. Come in the stylish organdie patterns, rich color combinations. Extremely good values at 12c a yard.  
**New Wash Goods**  
Among the new things arriving at our wash goods department are figured pongees, bourette, nicker suits, dotted Japanese, crepes, Panama, etc. All the stylish shades and patterns.

**RESULTS OF FOOD**  
Health and Natural Conditions Come From Right Feeding.  
Man, physically, should be like a perfectly regulated machine, each part working easily in its appropriate place. A slight derangement causes undue friction and wear, and frequently ruins the entire system.

**FOOTHILL HOMES FOR LESS**  
Than city property. Convenient residence for Los Angeles business men. Pure water, mountain air. Equable temperature night and day.

**MONROVIA**  
Place to rear your family in good health. Schools, churches, electric lights, miles of improved streets. I can quote you lower prices on homes and lots than prevail in any suburban town with advantages. Pacific Electric transportation. Round trips on daily ticket, 25c.

**C. E. SLOSSON**  
Real Estate Dealer, Monterey, Cal.

**Free Balloons**  
To all children whose parents purchase goods on second floor.

**Dame Fashion's Most  
Fetching Spring Millinery**

You will need but visit our enlarged millinery department tomorrow to decide at once that it is here you will select your Spring hat.  
As you step from the elevator on our third floor your first glance will inspire you with enthusiasm. We have spared no expense in securing the highest talent for this department. There's something impressive about every hat, whether it's an inexpensive walking hat or one of the beautiful French model hats.

**5000 Samples of Women's  
Fancy Hosiery 25c**  
Styles Worth 50c, 75c and \$1.00  
We commence tomorrow our greatest sale of sample hosiery. There are over 5000 pairs in the lot, and over 600 different patterns. The lot contains about equal quantities of 50c, 75c, and \$1.00 hosiery. The entire lot will be spread on counters and priced 25c so that everyone will have plenty of opportunity of making a selection.

**Men's Sample Hose 25c  
Worth Up to \$1.00**  
Needn't pay fancy prices to a furnishing goods store for here are over two thousand pairs of the finest fancy hosiery in all the new effects. Over two hundred different styles—lace patterns, extracted patterns, silk embroidered patterns. Your pick tomorrow 25c the pair.

**\$1.25 Spring Silks 95c**  
The lot includes silk pongee in 36-inch width; also printed yard taffetas in Dresden and floral designs; also silks in small patterns expressly intended for shirt waist suits; and again Cheviot Bros. celebrated foulards. All these are \$1.25 silks. Special Monday at 95c.

**Spring Dress Goods \$1.00**  
A large showing of the popular velvets and tansies in the late spring shades; a soft, sheer material for fashionable clinging gowns; 42 to 46 inches wide. Sale price \$1.00 a yard.

**Crepe de Paris \$1.25 Yard**  
A splendid showing of Crepe de Paris and silk etienne. These are the favorite spring materials. Come in black and a full range of the new spring colors. Per yard \$1.25.

**Granite Cloth 50c Yard**  
Wool granite cloth in the spring weight. Comes in black and a full range of colors. A good, medium-priced cloth. Price 50c yard.

**\$2.25 to \$4 Lace  
Curtains \$1.95 Pr.**  
These include ruffled nets and applique curtains, also Swiss curtains with lace insertion. Regular values \$2.25 to \$4.00, special \$1.95 pr.

**\$1.65 Curtains 98c Pr.**  
There are 62 pairs of these curtains. They include lace curtains, ruffled Swiss curtains with lace insertions, also a choice line of Nottingham curtains. Values to \$1.75, special 98c a pair.

**\$6.50 to \$9.00  
Curtains \$5.85 Pr.**  
A splendid assortment of curtains for parlor and living rooms, including Irish Point, Point de Laine, Fenestras, Marie Antoinette, and imitation Arabians. Regular values \$6.50 to \$9.00, special sale price \$5.85 a pair.

**You Can't Kill**

**Inside Germs With Medicine. Won't You Try Ligozone—Free?**

You who still use medicine for what medicine cannot do—let us show you the power of Ligozone. Let us buy you a bottle—a full-size bottle. Please try it out on your system. You cannot cure illness without destroying the cause of it. And, when that cause is inside germs, medicine cannot destroy it.

**Two Million Dollars**  
Have been spent to make Ligozone known. We have bought the first bottle and given it free to every sick one we learned of. The result is that one home in five, the country over, has someone whom Ligozone has cured. These homes are scattered everywhere. Your neighbors and friends live in some of them. If you will only ask what Ligozone does, there are millions to tell you about it.

**What Ligozone Is**  
Ligozone is a product which, in the past two years, has sprung into world-wide use, so that the threat of germ disease is no longer a threat. It is now used by the sick of nine nations; by physicians and hospitals everywhere. It is daily used in millions of homes in America.

**How Ligozone Cures.**  
The greatest value of Ligozone lies in the fact that it kills germs in the body without killing the tissues, too. And no man knows another way to do it. Any drug that kills germs is poison, and it cannot be taken internally. For that reason, medicine is almost helpless in any germ disease. Ligozone is a germicide so certain that

**CUT OUT THIS COUPON**  
For this offer may not appear again. Fill out the blanks and mail it to the Ligozone Company, 616-618 Wabash Ave., Chicago.  
My address is.....  
I have never tried Ligozone, but if you will supply me a full-size bottle, I will take it.  
Give full address, even plainly.  
Any physician or hospital can get Ligozone will be gladly supplied for a cure.

## San Bernardino and Orange.

(NEWS REPORTS FROM TIMES CORRESPONDENTS.)

## DOYLE HEARING HELD BACK.

OTHER NEARER HEIRS SAID TO HAVE BEEN FOUND.

San Bernardino Law Firm Reported to Have Been Retained by Alleged Sister of the Deceased, Who Has Sent the Attorney Doyle's Letters of Twenty Years Back.

SAN BERNARDINO, March 11.—The Doyle will contest, which is to have been heard today in the Superior Court, has been continued for two weeks, at the request of the Public Administrator, who intends to dismiss his petition to probate the alleged Doyle will, and intimates that he will file a contest of the petition for letters of administration applied for by George B. Jones, the alleged first cousin of Doyle.

It is intimated that the Public Administrator has found nearer heirs than Jones. It is also reported that a local law firm has been retained by an alleged sister of the deceased, who has sent the attorney Doyle's letters of twenty years back to her by Doyle dated back twenty years.

INDIAN SAYS HE'S CRAZY. A Warner Ranch Indian named Caprasse created quite an excitement at the Southern California State Hospital for the Insane at Patton this morning by rushing into the office of the medical superintendent and announcing in a guttural voice that he was crazy and that he had run all the way from Warner's Ranch to be admitted to the hospital. Constable Motherhouse of Highland was telephoned for and he removed the Indian to the County Hospital, where he will be held pending his examination by a lunacy commission.

WOMAN PIONEER DIES. Mrs. Amanda Linnville, a pioneer of this vicinity, died last evening at the home of her daughter, Mrs. E. E. MacGibbon, aged 76. She was a native of Kentucky, and had lived here nearly thirty years. She leaves two daughters, Mrs. Condee and Mrs. McCollum, both of Los Angeles; also two sons, Frank and H. H. Linnville, both of Highland.

QUICKLY CASE WITH JURY. The assault case of Peter Quigley, accused of having attacked J. E. Sloan, a bartender at Daggett, went to the jury late this afternoon. The trouble between the two men occurred in Sloan's saloon. Sloan had thrown Quigley from the place, claiming that he made himself obnoxious by repeatedly trying to bum a drink. Quigley immediately returned to the saloon and drew a revolver on Sloan, who grasped with Quigley, and breaking the revolver, threw the shells over the door. Quigley claims that he drew the revolver as a bluff.

WATER HEARING TOMORROW. The Riverside Water Company, which is defendant in an action instituted by John H. Barton for a permanent restraining order to prevent the defendant from operating its elaborate

system of pumping plants in this artesian belt, has filed affidavits in the Superior Court to support a motion for a change of venue to Riverside. The action is set for hearing next Tuesday in the Superior Court. The motion for change of venue is based upon the allegations that Superior Judges F. F. Oster and B. F. Biedson are disqualified from hearing the suit, as both own land within the artesian belt described in the complaint.

This action was anticipated, and Judge Oster has already arranged with Superior Judge Walden M. York of Los Angeles to hear the injunction proceedings. The motion for a change of venue has been set for hearing next Monday morning.

REDLANDS. GROWERS WANT MARKET PLAN. REDLANDS, March 11.—There were about 100 orange growers and business men present this afternoon at the mass meeting held in the Y.M.C.A. The purpose of the gathering was to consider and take action upon the recommendation made by Inspector-General Burton, U.S.A., in a paper read at a previous meeting of growers and afterwards distributed. As the growers of this and neighboring localities are looking to the improvement of marketing conditions, they have been set for hearing next Monday morning.

A resolution was adopted providing for the appointment of a committee of men from various districts represented whose duty it shall be to "organize one or more mutual associations where needed or to advise the growers who so desire to join associations already formed, if compatible with the interests of the association and the individual growers concerned." The committee is empowered to devise a plan of cooperation between the several associations and their branches for the marketing of the fruit. After having done these things, the committee is to call another mass meeting of the growers and submit to the meeting the plan devised.

The members of the committee are: Redlands, C. T. Barnes, C. B. Hendry; Crafton and Montrose, Ira E. Miller; Highland, E. J. Yokum; West Highland, A. E. Sterling; East Highland, O. W. Harris; Byron Mawr, Mission and Mount City, J. F. Scott. The chairman of today's meeting, F. P. Meserve, will act as chairman of the committee.

Pacific Squadron now at Coronado. GARAGE MAN MISSING. (BY DIRECT WIRE TO THE TIMES.) RIVERSIDE, March 11.—(Exclusive Dispatch.) Ed Harpham, proprietor of the Orange Valley garage, has mysteriously disappeared and his family and friends are much concerned as to his whereabouts. His first business venture in town was the purchase of a bicycle shop. This he conducted for several months, but recently opening the garage.

So far as known Harpham owned no large bills in town. His family believes that he was unbalanced. They are left in destitute circumstances.

PASADENA GIRLS WIN. Basketball enthusiasts who braved the storm this afternoon to witness the game between the Sherman Indian girls and the all-Pasadena team at Armory Hall were amply repaid for their discomfort, for more scientific and spirited play has never been seen here. The Sutton girls won the game

## THE BIGGEST EVER.

The Times printed 782 more columns of advertising in February just passed than for the same month last year. No other Los Angeles paper increased its business by one-half this amount. The facts set forth below tell the story.

Three thousand five hundred and thirty two columns was the February advertising record of The Los Angeles Times. An average of over 126 columns per day (official city advertising, amounting to 177 columns, not included).

The other four dailies, the Record, Express, Herald, and Examiner combined averaged 167 columns per day as against 126 columns for the head of the newspaper procession.

The Times is thus seen to be farther in the lead of all competitors than ever before. It is an evidence that advertisers recognize in it the best advertising medium in California and that money paid for advertising in its columns is a profitable investment and not an expense.

The Typographical Union boycotters who are still spending the annual assessment levied on each member of the organization in the United States in a futile attempt to ruin the business of The Times will please sit up and take notice of the above facts and of the further important facts: first, that The Times is regularly in both its Daily and Sunday editions the largest newspaper in the world; and, secondly, that it grows, and grows, and grows.

For Pasadena, May Sutton's goal throwing being the feature of the game. The final score stood 19 to 9 in favor of the visitors. A dance in honor of the visiting team was given at the Glenwood Hotel this evening.

GARCON FURNERAL. The funeral of G. W. Garcon, the pioneer of Riverside, took place today. Rev. E. P. Goff was assisted by Rev. Dr. Deere, pastor emeritus of the Universalist Church. The Masons had charge of the services at the cemetery.

Hotel del Coronado always pleases.

CORONA. FUMIGATING FRUIT CARS. CORONA, March 11.—The Boston and South Riverside Fruit Company is the first local concern to use the new method of fumigating fruit cars in place of icing. The car is kept sealed for twelve hours following fumigation, which process requires an hour to complete. The cost of this method is one-third that of icing and it is said to have other advantages.

The company has sent out three fumigated cars of fruit in addition to the load ones, with the view of comparing results.

NEWS JOTTINGS. The Helen Hudson ten-acre avel orange grove on Olive street has been exchanged for city property in Minneapolis, Minn. The new owner, George Williams, will build on the Coronado grove and live here. Consideration stated, \$6000.

Contracts for gas plants at Monrovia and Anaheim have been awarded to Barth & McGillivray of Corona, who also installed similar plants at Covina and Orange. The Corona Lemon Company has leased for three years the Merchants

## WHAT SULPHUR DOES.

For the Human Body in Health and Disease.

The mention of sulphur will recall to many of us the early days when our mothers and grandmothers gave us our daily dose of sulphur and molasses every spring and fall. It was the universal spring and fall "blood purifier," tonic and cure-all, and mind you, this old-fashioned remedy was not without merit.

The idea was good, but the remedy was crude and unpalatable, and a large quantity had to be taken to get any effect.

Nowadays we get all the beneficial effects of sulphur in a palatable, concentrated form, so that a single grain is far more effective than a tablespoonful of the crude sulphur.

In recent years, research and experiment have proven that the best sulphur for medicinal use is that obtained from Calcium (Calcium Sulphide) and sold in drug stores under the name of Stuart's Calcium Wafer. They are small chocolate coated pellets and contain the active medicinal principle of sulphur in a highly concentrated effective form.

Few people are aware of the value of this form of sulphur in restoring and maintaining bodily vigor and health; sulphur acts directly on the liver, and excretory organs and purifies and enriches the blood by the prompt elimination of waste material. Our grandmothers knew this when they dosed us with sulphur and molasses every spring and fall, but the crudity and impurity of ordinary flowers of sulphur were often worse than the disease and cannot compare with the modern concentrated preparations of sulphur, of which Stuart's Calcium Wafer is undoubtedly the best and most widely used.

They are the natural antidote for liver and kidney troubles and cure constipation and purify the blood in a way that often surprises patient and physician alike.

Dr. R. M. Wilkins while experimenting with sulphur remedies soon found that the sulphur found in Calcium Wafer was superior to any other form. He says: "For liver, kidney and blood troubles, especially when resulting from constipation, or malaria, I have been surprised at the results obtained from Stuart's Calcium Wafer. In patients suffering from boils and pimples, and even deep-seated carbuncles, I have repeatedly seen them dry up and disappear in four or five days, leaving the skin clear and smooth. Although Stuart's Calcium Wafer is a proprietary article, and sold by druggists, and for that reason, it is not a free physical, yet I know of nothing so safe and reliable for constipation, liver and kidney troubles and especially in all forms of skin disease as this remedy."

At any rate people who are tired of pills, cathartics and so-called blood "purifiers," will find in Stuart's Calcium Wafer, a far safer, more palatable and effective preparation.

Roberts and Mrs. Frances Randall.

**FIRE EATS HAY.**  
Barn Containing Hundred Tons Burns All Night—Tramps Supposed Cause.  
A hay barn containing nearly one hundred tons of hay, the property of D. M. Bunley, at Sixth and Virgil streets, was destroyed by fire shortly before midnight. The cause of the fire is not known, but it is supposed that tramps sleeping in the hay set fire to it by smoking there.

The No. 11 engine company worked all night on the fire. The loss will approximate \$1500 with about \$1000 insurance.

**MARRIAGE RECORD.**

## NOT MUCH FUN IN LUMBERING.

Deckloads Awash Too Often for Comfort.

Some Stormy Sides of the Schoonerman's Life.

Growth of a Great Industry at San Pedro.

Hundreds watch the slumbering lumber schooners lazily swinging at their moorings, slowly rising and falling to the heave of the ponderous Pacific rollers at Redondo, or resting at ease in the placid, strait-like harbor of San Pedro, methodically discharging their deckloads over the wharves, but not one in a hundred who sees passes to ponder over the other side of the business. And there is another side—a stormy, salty one, saturated with the breath of the sea, and powered by but little more of oceanic poetry than the dreary puddling back and forth of a fleet of colliers.

Running lumber from the North down coast is not all a matter of summer sailing; more frequently it is a story of stress of weather to be met in overburdened boats, loaded to their channel plates with sodden timbers, stubbornly holding their way through the seas they cannot surmount—sometimes a story of sheer hulks and carcasses out drift; at times even privateers.

The month of March, of all the year, is most dreaded by the schooner skipper, for most of them, men of years' experience, have learned to expect frequent and treacherous storms during that month. Ferocious gales from the south-east or northwest are more likely to come than during the usual warming, and in consequence the lumber traffic falls below the average.

Commerce engaged in the business and having shipping stations in the North usually carry their cargoes in their own boats, and have regular lines of schooners, sometimes steam-driven, plying upon regular schedules, partly of the sea, and partly of the land. They are also the "tramp" craft, in no way different from the regular lines, but always ready to accept a charter from any of the companies which have temporarily more business than their boats can carry. The "tramp" are generally quite well equipped; some of them are really fine pieces of marine architecture, in every way commensurate to the shipowner's pride, but the "tramps" for the greater part are broken-down fabrications, and the sailor's portion on them is even harder than necessary. Any old sail will do, and the calling is arduous enough at best; the work constant and dangerous, and the pay, for that reason, the stevedores continue piling it in until the windens that are found on the foundering is said to be but little, but the cargo in a few days of rough weather—and there is usually plenty of that—becomes water-logged; the craft rolls like a drowned horse, everything aboard is soaked and a most thoroughly uncomfortable place to be in indeed hard to imagine. Sometimes, should a stiff storm come up, the men have to do without a hot meal owing to inability to keep a galley fire burning.

It is a matter of civility with lumber captains to stay with their deckloads as long as possible; a skipper would think himself forever disgraced were he to part with a single stick of lumber that by any amount of wallowing through waves could be finally landed in port. Craft sometimes crawl into San Pedro literally under water, and with decks awash. Such trips in addition to the discomfort are always slow, as a waterlogged schooner is like a haystack adrift.

It is hard to get these ocean lumbermen to tell of their experiences at sea; they say, "It is all in the business and to be expected," and declare they do not like the calling but have none other.

Most of the captains are of Scandinavian or Danish extraction; in fact, it is a common saying that a Swede or Norwegian taken to the lumber business is like a duck to water. Such men are hardy mariners of a stern sort; the old Norse stock stands back of them, and they are men who follow up orders with bolting pins if necessary. There is not much rebellion on a lumber schooner as a rule, though provocations generally exist. The trips are too short, and the captains too well known. Some of the older, and better-built of the schooners are fleet travelers when in ballast and favored with a stiff breeze on the quarter, which is the best point of sailing for a "fore and after." Many are the rigs that ply in the lumber traffic; all manner of three, four and five-masted schooners, barques, barkentines, brig, brigantines and some combinations that haven't yet been classified, but the three-masted schooner is the most common, and the sails require less men to work them, and are gradually displacing all other

The growth of the lumber business in the last five years, particularly at San Pedro, has been nothing less than phenomenal, and it is now no uncommon sight to see half a dozen vessels swinging at their cables in the outer harbor awaiting the high tide to cross the bar. The wharves are lined for thousands of feet with a motley array of craft, all bristling with masts, rigging, planks, timbers, shingles, shanties, pilings, telegraph poles, to feed the insatiable need of the Southern California contractors.

**SCHOLZCHULTZ CHAPTER.**  
On Tuesday last, the Scholzhultz Chapter met in the Rhel clubrooms as guests of Mrs. Charles Seely Eastman and Mrs. Walter Fox Winslow. A large number of members and visiting daughters from many different states enjoyed a delightful afternoon. The rooms were handsomely decorated with flowers prominent among which was the California poppy for which the chapter was named. After a business session a fine program was rendered. Mrs. William McClellan gave two piano solos with her usual artistic rendering. Misses Freeze and Myers won much applause by their beautiful vocal duet and solo. Miss Mary Phelps charmed all by her readings, especially in her rendition of "The Bobolink" which elicited a hearty cheer.

**WATER CONGRESS DELEGATES.**  
The Los Angeles Board of Trade has appointed the following delegates to the water congress, which is to meet tomorrow at the Chamber of Commerce: Eugene Germain, J. M. C. Marshall, A. B. Case, S. W. Luitwiler and R. H. Herron.

**WANTS HER GIRL.**  
Mrs. Steiner, living at No. 670 Wall street, reported to the police yesterday that her daughter, Bernice, aged 15 years, had run away from home, and she desired that they keep an eye open for her. She wore a short-sleeved suit and carried a basket telescope.

## FRENCH SAVANT COMING.

M. Brentano Will Visit Los Angeles. Has Impressed Himself on French Literature.

A noted French savant, writer and lecturer, M. Francis Funck-Brentano, is coming to Los Angeles the last of this month.

M. Funck-Brentano, who is making a tour of the United States, has impressed himself upon French literature of the present day. He is a contributor to the most important reviews of his country, "Revue des Deux Mondes," "Revue de Paris" and others. His latest book is a general history of the French brigandage from the Middle Ages up to the time of the Corsican brigands, including the famous filibusters who were the plague of the Spanish Americas in the seventeenth century.

His first literary work after leaving college was the classifying of the archives of the Bastille, this being the unfinished task of Francois Raymon. This occupied ten years of the writer's time, and he published for the benefit of the public at large "Legendes et Archives de la Bastille," in which he presents the famous prison in a new light, solving in a definite manner the enigma of the Man with the Iron Mask.

From information contained in the records of the Bastille of which M. Funck-Brentano has charge in the Arsenal Library, he has written a number of his books, and under the auspices of the city of Paris has just published a complete list of the prisoners of the Bastille, with an extensive introduction devoted to the study of Lettres de Cachet.

M. Funck-Brentano was elected president of the Society of Historical Research in Paris in 1898.

**BOOMS SANTA CRUZ.**  
Representative of Board of Trade Comes to Interest Tourists in Big Tree Section.

M. R. Judah, Jr., representing the directors of the Santa Cruz Board of Trade, has come to Los Angeles for the purpose of placing before tourists and others the attractions of his city and the surrounding country. He is making his headquarters at present at No. 297 West Third street, but in the course of his stay in Southern California will visit Pasadena and other sections.

"What we wish especially to impress on the people," said Mr. Judah, "is the fact that travelers, whether on overland or local tickets, may stop over at Santa Cruz and see the big trees of our vicinity. They also will have an opportunity to enjoy one of the best beaches and the most climate."

"There are two groves of redwoods within easy reach of Santa Cruz, one of them but five miles distant, and the other twenty-three miles away but easily reached by train and stage. This latter grove comprises the State park and contains 200 acres covered with big trees, some of them 300 feet high and 6 feet in circumference. There are trees of similar size in Fremont grove, nearer the city."

"We are not attempting to take away what may belong to Los Angeles but to call the attention of travelers to a section of the State of which they know little and of which they can learn and enjoy much at little expense."

**LOST DIGITS.**  
S. B. Beverly was yesterday afternoon taken to the Receiving Hospital from Ninth street and Maple avenue, with a fractured hand. He was unfortunate in getting his right hand in a planer that he was operating, and Dr. Quint found it necessary to amputate the thumb and index finger.

**GAMBLING DEN CLEANED OUT.**  
The interior of Black's old pool room, on East First street, was completely torn out yesterday, and as soon as the last rubbish is cleared away the furnishings of a small theater will be put in for Manager Fischer of San Francisco, who proposes to run low-priced vaudeville there.

**"RAMONA" SUCCESSFUL.**  
The ramatized "Ramona" with Miss Virginia Calhoun in the name part, is pursuing its northward way with considerable success, according to the accounts which have come back to Los Angeles. On Wednesday evening last "Ramona" was seen in Santa Barbara, playing to a house of more than 800. At that time local men who saw the play said that it had been improved considerably since its premier at the Mason.

**The Russian Way.**  
The Emperor Nicholas—who sent 150,000 troops into Hungary in 1849 to help out a brother despot—sent to Francis IV of Prussia two great soldiers. He wanted them to perform certain massage upon the imperial back while its possessor lay upon the imperial stomach.

"I can always manage my Russians when I can look them in the face," he said, according to Bismarck, "but on my stomach and without eyes I should not like them to come near me."

It got the grand old Emperor a soldier in the middle of a grass plot in the palace grounds. Why was there a daily guard, relieved at stated intervals? No one knew. Curiosity was aroused, and in 1871—when, as a snowdrop in bloom that point unusually early and asked that a guard be stationed there to protect it. And there a soldier remained for at least 12 years; no one knew how much longer.—Bismarck's Autobiography.

We will give up our store next Saturday

# Our Last Week Everything Must Go

Contrary to our previous announcements, we have decided to give up our store next Saturday night, March 18. This means that we must double our efforts to dispose of every article as soon as possible. It means that we must sell everything in our store regardless of the price offered for it, although it may be a mere fraction of what it is worth.

This great auction sale is given to dispose of our entire stock, and is not the selling out of a special stock bought for auction sale purposes. Anyone who has lived in this vicinity, even for a short time, knows what the Campbell Curio stock is, and can well appreciate what this great auction sale means. During the remainder of this week we will hold two sales daily, the first beginning at 10:30 a.m., the other at 2:30 p.m. Anyone who is at all interested in curios can ill afford to miss one of these sales.

MR. W. H. BOSLEY CONDUCTS THESE SALES

This Sign Comes Down Saturday March 18

OUR STOCK

This large stock of curios includes Mexican drawwork, quilts, etc., Japanese porcelain, Satsuma, Bizen, Cloisonne, Iroko, Furniture, Chinese Mandarin Robes and Slippers, Etc., and a hundred and one other curios such as you would expect to find in a large Curio Store.

10:30 a.m. 2:30 p.m. Daily

Campbell Curio Co. 329 South Spring Street

# THE CALIFORNIA LIMITED

What they say—Not what we say.

The California Limited Log Book  
DEC. 10, 1904

I am glad of an opportunity to record my vote in favor of the Santa Fe. Its attention to the little details which go to relieve the tedium of the transcontinental trip adds materially to the comfort of the traveler. The Santa Fe gives us good beds and the best dining car service to be found anywhere East or West. If there is luxury in railroad travel "The Limited" furnishes it.

A. B. YOUNG, Winona, Minn.

THE ONLY TRAIN TO CHICAGO AND EAST WHICH IS EXCLUSIVELY FOR FIRST-CLASS TRAVEL

KITE-SHAPED TRACK

THE SIGHT TO SEE

Santa Fe

Grand Canyon of Arizona

When you go East you can see this most wonderful sight at small cost in money and time. It's a wonderful trip to this wonder of the world.

It is reached in 3 hours from Williams on the main line of the Santa Fe to Chicago. The accommodations at the Canyon run from very simple to the highest standard while the charges are reasonable.

Southern California can be seen in only one way—some lines show you the suburbs of Los Angeles, others show you a part of San Gabriel Valley and others show you fragments, but unless you go around the "Kite" where no scene is twice seen you don't know its varied and everlasting beauties.

Coronado Beach

The Queen of all the California resorts is now at the top of the season. People who are anybody anywhere are there.

The presence of the Pacific Squadron, of the U. S. Navy, adds to the social brilliancy of the season, and then it has every form of outdoor sport or recreation.

Mr. Morgan Ross, the new manager, has made a great success with all the guests of Coronado.

# BABY'S AWFUL SKIN HUMOR

Many Doctors Called It Chronic and Said Sores Never Could Be Healed.

## CURED BY CUTICURA

Child Was Getting So Bad Mother Didn't Know What to Do—Hospital Physicians Said There Was No Hope—Complete and Permanent Cure by Cuticura at Expense of \$1.75.

"Words cannot express the gratitude I feel towards what Cuticura Soap, Ointment and Resolvent have done for my son had Eczema as bad as any child could have it. I had several Doctors treat him, but they helped him only for the time being; and after they discontinued treating him his head would begin to get sore again, almost next day. It got so bad I didn't know what to do. I took him to the Hospital where the Doctors said he had Chronic Eczema. They gave him a wash for it, but said it was no use to think of it ever being cured."

"The child was failing, and I thought I must do something and reading about the Cuticura Remedies, decided to try them. I went right to the nearest store and purchased a bottle of Cuticura Resolvent, one box of Cuticura Ointment and a cake of Cuticura Soap, and began using it. I found that the cure was only temporary, as it had been with the other medicines ordered by the doctors and hospitals. I continued with Cuticura, and by the time I had used one and a half boxes of Ointment, one small bottle of Resolvent, and one cake of Soap, I found that the cure was complete and permanent from day to this, two years and a half. My boy is now five years old and has not had a sign of a sore since I began with Cuticura. I shall never be without Cuticura Soap; I find it so good for the purpose of toilet and for the children."

MRS. J. SCHEPPER

# BASKETBALL IN THE RAIN.

Los Angeles High Defeats Glendale Girls.

Star and Crescent Install New Set of Officers.

Outdoor Kindergarten for Twenty-fourth Street.

Pouring rain, mud, slush, good nature and fun marked the basketball game yesterday morning on the Los Angeles High School court between the second Los Angeles team and the Glendale High School team.

The Glendale girls were determined to play in spite of the threatening skies and the local team could not risk the first round made by their school this year in letting the game go by default. To play they did, and for all they were worth, though during the latter half the court was like a skating rink, the ball was encased in mud, and the hands, and in a few cases the faces, of the fair participants were besmeared with earth.

Under such conditions scientific play was impossible, but some of the players were exceedingly promising, and in spite of the rain many fine hits were made on both sides.

Some anxiety was felt in the beginning by the ardent partisans of the local High school, because while it was the second team in this school, the Glendale team was the first one in theirs. This fear was entirely unnecessary, for the Los Angeles girls proved the winners; the visiting team was outclassed from the beginning.

The local team won by a score of 23 to 8. During the first half, Miss Wilma Kandelius, one of the forwards, threw six field goals and two free throws—three field goals and one free throw being made by Miss Kandelius. The other forward on the Los Angeles side was Miss Mildred Hunter who is also captain of the second team. Miss Hunter was very successful, having made four field goals and one free throw. The center of the Glendale team, Miss Mildred Hunter, was very successful, having made four field goals and one free throw.

The game was a county one, and again the Los Angeles High School was the winner. A third team in the field, the Los Angeles team, will be decided upon the outcome of the game. The Los Angeles team will play the Glendale team on March 23, the second of the chosen lot.

**STAR AND CRESCENT.**  
The Star and Crescent Society, Los Angeles High School, met Friday afternoon in the High School auditorium. The new officers, elected Tuesday night, were: President, Frank Stevens; Vice-President, Leonard Jones; Secretary, Maud Howells; Treasurer, George Young; and the retiring president, Mr. H. B. Howard, was appointed for various purposes, business was transacted, and after the officers were elected, a program was given as follows: "Moonlight Serenade" by the Los Angeles High School; "Moonlight Serenade" by the Los Angeles High School; "Moonlight Serenade" by the Los Angeles High School.

**STATE NORMAL.**  
The State Normal School and its friends are looking forward with keen interest to Tuesday afternoon, March 14, when Edward Biglow of the University of California will deliver a lecture in the auditorium upon the subject of "The Normal School."

**OUTDOOR KINDERGARTEN.**  
The first outdoor kindergarten to be located in Los Angeles has been located in connection with the Twenty-fourth Street school. The children of this school will be taught to play in the open air, and the school will be a model of the kind of school that should be everywhere.

**OUR MEDICAL JOURNAL FREE.**  
Downstairs at our entrance, 6074 S. Broadway, you can help yourself to our free medical journal, which we send out to our patients. If you live at a distance, write for one.

**FOR PORTLAND EXPOSITION.**  
The children in a number of the schools are greatly interested in the preparation of the books which will be sent to the Exposition at Portland. The children are working on a volume, and there is considerable interest in which school shall win the best work.

Has again shown its efficiency and

has again shown its efficiency and trip between Santa Barbara and Los Angeles in 6 hours. This is not the fastest but it happened that the Ventura and the WHITE went through a foot of its own power, while three others on either side of the river to be towed.

When buying a machine, why not go anywhere, no matter what the price.

### FANS HUNGRY FOR BASEBALL.

All Other Sports to the Woods in New York.

All Eyes on Highlanders and Giants in the South.

"Spit" Ball Mastered by the Two Teams' Pitchers.

NEW YORK, March 11.—(Exclusive Dispatch.) Baseball, baseball, baseball! All other sports to the woods for New York just now! One week of beautiful springlike weather has whetted the appetites of a hundred thousand fans, and they are eager for the fray. All eyes are upon Savannah and Montgomery, where the Giants and Highlanders are getting into shape for the opening games, and from the Southland come the report that Newton, Hogg, Matthews and all the rest of the star pitchers of the two New York teams have thoroughly mastered the famous "spit" ball, and as alarmed have the baseball public become over this alleged mystery that many suggestions are thrown out that the "spit" ball be done away with entirely, for fear of its effect upon batting.

Griffith still longer for a sight of Chase, and will not be at peace until the youngster is safe in the Highland fold. Chase is the main dependence of the team for the first bag, and if he should fail to turn up, the Highlander manager will have to do a lot of lively hustling.

Reports that the Pacific Coast clubs are going to kick over the traces, and so it alone will not do, and there is no denying that the biggest of the minor league organizations is causing the big leagues a lot of trouble some day.

### GRIFITH'S GIANTS.

Griffith does not lay any stress on the elite of players, except pitchers. He thinks most of the Keeler, Elberfeld, Conroy size are the best for most purposes, combining nimbleness of weight and body better than bigger men, but he has a strong fancy for big men in the box, where strength is as valuable an asset as activity. His desire for big pitchers will be gratified this year. Barring himself, there will not be a man less than 6 feet 10 inches tall on the staff, or less than 200 pounds in weight. As a rule they will run bigger than that, for several are six-footers and weigh around 190 and 200 pounds.

Big-boned and deep-chested are most of Griffith's pitchers. Pettmann, Orth, Starkell and Newton are all six-footers. Orth is already a tremendously big fellow. He is what might be called big for his size. Jack Powell has the shoulders and weight of a six-footer, while Chesbro's gorilla-like torso is known all over the circuit. Walter Clarkson is bigger this year than he was last, and Hogg is close to six feet. Griffith is slender in build, but straight, clean-cut and wiry.

Speaking of Clarkson there is not a player on the team who, when you ask his opinion on the subject, will not tell you Clarkson will make good this year. "He has everything that a pitcher should have," they say, "including one of the best curve balls ever seen."

Clarkson has been showing a rather alluring slow ball since he reached Montgomery, and in practice yesterday and today "mild" "on up" more than a pitcher usually does this early. He has been pitching at West Point, but nevertheless was advised not to be so lavish at limbering his wares.

### MASTERS OF THE "SPIT."

There is one pretty sore arm in the New York pitching corps from early season work, and the possessor of it is Holy Cross (Christy) Matthews, the idol of Manhattan Island baseball fans, who has mastered the "spit." Several hundred Savannah fans, stood behind the wire screen of the grand stand Friday afternoon and saw the ball take strange shortcuts and keep catchers Marshall and Bowerman, who received it, alternately, guessing as to what it would do next.

Matthews practiced delivery for an hour and when asked if he had mastered it, said: "I can do anything with the ball that any other pitcher can."

Taylor and Elliott practiced delivery for some time and spectators and catchers declare that both men have acquired the "spit," although it may be in the primary stage.

### MONEY IN THE GAME.

That there is money in owning the National League ball team is shown by the figures that went to the profit side of the Giants' ledger last season. It is said by persons who know that the club made, above expenses, in the last two years, \$70,000, and last year close to \$100,000 was cleaned up. From the club John B. Day received \$150,000 clear profit in 1903 and 1904 with the New Yorks, who won the pennant twice in succession, under management of James M. Mutrie and the captaincy of Buck Ewing. The New York club traveled a rough road up in the season of 1904, when John M. Ward's team finished second. That year the club made \$48,000 which enabled owners to get back what they had sunk, and also prompted them to sell 51 per cent. of the club for \$48,000. Under the new ownership the club did not prosper to a great extent until Brush and McGraw assumed the reins, with the above result. These profits exceed all previous records unless they were equalled at one time by the Boston Nationals a dozen years ago. Soder, Bonant and Billings, owners of the Boston Nationals, are said to have made \$250,000 out of baseball in twenty years, all of which went to show that there is money in a winning ball club located in a big city, and that the National League has been saved from possible disaster by the unusual patronage of late at polo grounds.

### CINCINNATI CLUB.

Twenty-one members of the Cincinnati Club, accompanied by business manager Frank Bancroft arrived at Jacksonville, Fla., last night. When Seymour and Catchers Blackship and Street join the squad there will be twenty-four players in training—ten pitchers, four catchers, six infielders and four outfielders. Manager Kelly said he would give the youngsters a thorough try-out and give all of his time to developing new material.

### SOME TIPS ON FIGHTERS.

Jeffries Will Return to the Coast for Summer.

Berger and Richards Both Anticipate Victory.

Nelson and Britt Preparing to Fight in April.

(BY DIRECT WIRE TO THE TIMES.)  
SAN FRANCISCO, March 11.—(Exclusive Dispatch.) Bill Dalany writes a Valparaiso report that he and Jim Jeffries will return to California about June 1. Their show, which has been a success on the road, will close the season, the latter part of May, and Jeffries and Dalany will spend the summer on the coast.

Jeffries is planning an extensive hunting trip in Yellowstone Park this summer, and Harry Corbett has been invited to join him. The Federal government doesn't allow hunting in the famous park, but close shooting is found in adjoining territory. When Jeffries comes home from the local clubs will frame up a fight for him.

In case Richards should make quick work of Berger, it would give him national prominence and he would be talked of as a formidable opponent. Richards has the build of a great fighter, but it will take time and experience to tell whether he is.

### BROOKER'S SPEED.

Sam Berger has developed speed truly marvelous in a man of his build and his foot work while boxing with Britt, Kaufman and Hart at Sheehan's beach resort, has brought forth approval from onlookers.

"I'm working more for speed than for staying qualities," Sam said today. "I think I trained too hard for my last few fights, so I'm cutting the work down to long tramps and a few sprints, and working altogether with the idea of being faster than ever on the big night. I'm glad to have a chance to meet someone with a reputation for I hardly think the public gave me much credit for beating Casey and Long."

### BIG BILL RICHARDS.

"Big Bill" Richards is working at the Hawthorne Club with a seriousness that speaks volumes for the task that Berger has on his hands. Richards is of the kind that "says nothing but says wood." He has a way of going about his gymnasium work that shows the experienced fighter, the trained athlete, and what he lacks in cleverness he makes up for in strength and aggressiveness. Dick Green, who trains the big fellow, is confident of victory.

"I'm betting my bank roll on his chances, and if anybody will show me I can't win, I'll guarantee to bet it all. We didn't come all the way out from Chicago to win back."

Richards and Berger meet before the San Francisco Athletic Club next Wednesday night.

### BRITT AND NELSON.

After Jack Johnson and Marvin Hart, then will come Jimmy Britt and Battling Nelson. Britt hustled out to Sheehan's and started right in to box with Berger and run with him on the road. Nelson was seen taking exercise, but saying little about it. Nelson and Britt will fight in April, and Jimmy Corbett will be master of ceremonies. He has made his peace with Gregorius and Morris Levy, who will offer no opposition to him receiving an April permit. What brought Gregorius and Levy to terms was the Mayor taking up Corbett's battle. He called the promoters up and informed them all were friends of his and each would be treated alike in the matter of permits. Gregorius was given the tip that if he opposed Corbett in his effort to battle the Nelson-Britt fight in April, he would not be allowed to pull off the Hart-Johnson bout, for the Mayor would veto the permit. Britt said he might be ready to fight Nelson any time.

### WALSH AND MORAN.

(BY DIRECT WIRE TO THE TIMES.)  
BOSTON, March 11.—(Exclusive Dispatch.) Jimmy Walsh, the Boston fighter, has been matched by a New York manager for a private fight with Owen Moran, an English fighter, now coming over, for \$2000.

### FAVORITE WINNERS STAKE.

(BY THE ASSOCIATED PRESS-P.M.)  
SAN FRANCISCO, March 11.—The Whiff won the Bell stakes today out of a field of eight. He was the public's choice at 12 to 10. After racing Roman Gold into submission, he made every post a winning one, and in the final furlong stood off the fast-coming Mary P. The latter was slow to begin, but ran a good race and was going strong at the end. It was very close for the show. Roman Gold got in by a head from Abe Meyer.

One mile: Calcutta, 56 (Fountain), 1 to 1; won; Golden Buck, 104 (Birkens), 11 to 1; second; Alona, 5 (Knap), 9 to 1; third; time 1:44.4. Edna Sullivan, 104 (Bark), 10 to 1; second; Morris and M. Lichtenstein finished as named.

Five and a half furlongs: Andrew B. Cook, 113 (Davis), 4 to 1; won; Mary's Price, 113 (Jones), 5 to 1; second; E. M. Brattain, 113 (Walsh), 5 to 1; third; time 1:37.4. Equine Johnson, Romeros and Mischief finished as named.

One mile and 100 yards: Hugh McGowan, 156 (Travers), 7 to 10; won; Matt Hogan, 151 (McBride), 11 to 1; second; McGregor, 101 (Tooman), 13 to 1; third; time 1:41. Major Tenney, Sunny Shore and Fred Ball finished as named.

The Bell stakes, \$2000 added, five furlongs: Sir Whiff, 113 (Jones), 12 to 10; won; Mary P., 104 (Knap), 13 to 1; second; Roman Gold, 113 (Walsh), 12 to 1; third; time 1:47. Scherzo, Rector and Divina finished as named.

One mile: Mindanao, 101 (Jones), 9 to 1; won; Toledo, 104 (Bark), 12 to 1; second; M. Lichtenstein, 104 (Jones), 12 to 1; third; time 1:47.4. Gateway and Big Beach finished as named.

### NO BASEBALL.

SUNDAY GAME POSSIBLE.

Owing to the rain yesterday there was no ball game at the Chute grounds between the Chicago and Los Angeles teams, and it is possible there will not be a game today, there will be games tomorrow and Tuesday afternoon. The teams are scheduled to play at Santa Monica Wednesday afternoon.

### Tennis balls soon to fly again—H. F. Elliott, crack racket wielder, smashing one back.

ter, and this should guarantee a large field and a fast race.

The Bennings Handicap is run in two divisions, the first at six furlongs, with \$100 added, on the opening day, and the second at seven furlongs, with \$100 added, on the closing day. There are penalties for those horses which win races of a certain named value after March 5.

The ages and weights are: Roseben, 4, 115; Tocco, 4, 120; Duke of Kendal, 4, 115; Atwood, 4, 117; Buttons, 4, 112; Martinmas, 4, 114; Invincible, 4, 112; Trapper, 4, 113; Arabo, 4, 111; Shrine, 4,

# ELK RESIST REMOVAL

California's Famous Antlered Herd Unconquerable.

They Defy the Authority Even of Uncle Sam.

Elk May be Captured and Sent to Yellowstone.

Within two thousand miles of Los Angeles, in the northwestern part of the state, on the great range of the Sierra Nevada, there is a herd of elk, independent specimens of the same animals that at one time roamed in thousands over the great western plains. Sometimes passengers on the Southern Pacific catch a view of these animals in the distance as the cars pass by. Persons who have visited and seen the country have seen them at a close distance, but it is well nigh impossible to approach them, as they are the most timid of all animals, being tame and fleeing at the first approach of danger.

The elk are hunted for years by Indians and white men, first with bow and arrow, and then with rifle, but this is not the case with the herd in the Sierra Nevada. The herd was first seen by the Indians in the year 1850, and since that time the great ranch and cattle owners of the San Joaquin Valley, who had a standing reward out for the capture of any person who should kill a head of noble animals. Thus they have thrived and increased in number, and are now a source of annoyance to the government, as they are the cause of much loss of cattle and horses, and their owners are facing the problem of how to remove them. They are now being captured and sent to Yellowstone.

Group of Elk cows which likely never will be removed from the valleys of Kern county.

corraling about fifty and driving them into the pen, where they were effectively shut out by the high board fence, and the effort to get them into the cars began.

But in the pen the trouble started anew. The sight of the white-washed fence and the hundreds of peering human faces aroused the timid animals to still greater frenzy. Night and left they dashed, turning themselves against the fence and against each other one minute, then huddling together in abject terror the next. Several died from sheer fright and some from exhaustion from their terrific struggle with the cowboys or from infection. It was intended to have a

## TENNIS TIME NOW AT HAND.

Court Enthusiasts Plan to Make an Early Start.

Heavy Entries for Tourney at Lincoln Park.

Old Favorites All Prepare to Participate.

Rackets will hum and balls bound on the tennis courts months earlier than usual this year.

In seasons past, the game has quite generally been relegated to midsummer and the benches. "Tennis week" has always been considered an August fixture at Santa Monica, but this year some sweeping changes are going into effect.

The recent announcement by the Central Coast Association, that a three days' tournament would begin on its conveniently-located grounds in Lincoln Park next Thursday created quite a pleasant little flurry in the amateur sporting world, and has already received such warm greeting that nothing but bad weather seems likely to prevent a very successful event notwithstanding the unprecedentedly early date claimed.

Although entries can still be made with either A. C. Way or Simpson Simsbach, the bulk of the veteran players are now agreed to participate and quite a sprinkling of newer ones expect to enter the lists.

Bill Brady, Elliot War, Overton, Simsbach, Hendrick, intend to participate in some of the events, if not all; and the matches between them, like May in particular, have promised to enliven the proceedings with daily exhibitions of their mastery skill in competition. Miss Gabrielle Dobbin, Mrs. Hendrick, Misses Peralta and Ryan of Santa Monica are also probably contestants.

It is planned to play during the afternoons of Thursday and Friday, ending all of Saturday if necessary to finish out the program.

Open and ladies' singles, men's doubles and mixed doubles will be played. Unusually attractive prizes are to be offered.

It is just possible B. S. Prentiss, a noted eastern crack, will be able to remain over for the tournament. He is now in town and is very anxious to play a little on the Coast. Prentiss was captain of the Harvard team and ranks high in ability.

"Rob" Rowan, another of the old-timers who participated in some of last summer's tennis events, expects to again swing a racket in the coming tournament. Tom Bundy and H. Ringling of Santa Monica, E. G. Galsworthy, Hal Gorham and several players of the younger set are to enter.

Garland, Messrs. J. J. Burke, W. Bayard Cutting, H. Waldo Foster, A. McAndrew, E. R. Soule and W. L. Thacher. The new Farnum cup is again to be contested for in singles. It was won last year by Albert T. Spaulding of the Thacher school. The Spaulding sisters will take part in the tournament.

**GOLF FIXTURES.**  
**LADIES' TOURNAMENT.**  
The executive committee of the Southern California Women's Golf Association will give a handicap tournament at the links of the Los Angeles Country Club, March 21. A handicap prize will be given by the committee. The open tournament will occur April 5.

**SPOILS SPORTS.**  
**EVENTS ARE POSTPONED.**  
Yesterday's welcome rain caused a postponement of the scheduled ball game at the Chutes, forced the charter race management to defer its announced races until next Saturday, and caused the athletic captains of U.S.C. and Los Angeles High School to decide upon Monday, weather permitting, for the decision of their dual track and field meet.

**Conservation Roads.**  
A bill has been introduced in the Connecticut Legislature providing for the appropriation of \$200,000 for the improvement of the public roads for the two fiscal years ending September 30, 1907. It was sent to the Appropriations Committee.

Experts who will figure in this season's tennis

## BIGGEST TIME AT RIVERSIDE.

Driving Club Members Plan Warmest of Jankets.

In Clark's Special Train, They Raid Riverside.

St. Patrick's Day. Will be Celebrated Right.

Members of the local Driving Club lost no time in accepting the kind invitation of their Riverside brethren to assist at the opening matinee of the drive belt organization, and thanks to the sportsmanlike offer of William A. Clark, Jr., who has donated a special train for the occasion, prospects now promise an attendance of not less than half the entire roster next Friday morning at 9 o'clock, when the "procession do move" out of Salt Lake station.

To show their appreciation of the fraternal spirit manifested by the Riverside directors of the Los Angeles Driving Club have voted a \$50 cup for the occasion to be awarded as their hosts may see fit. The train is to be decorated with banners, and it is confidently expected that the occasion will be quite the most momentous in the history of Southern California harness racing.

Seven races are announced by the Riverside Driving Club, graded from the three-minute mixed to the free-for-all. Los Angeles horses will compete in nearly every event.

**THOSE WHO WILL DRIVE.**  
H. N. Henderson will take Ole, 2:11 1/4; Henry Berry expects to pilot Briny K., 2:11; and Willie Jib, 2:15. Byron Ekstromer is to go with his H., 2:10 1/4; John Reynolds is planning to leave business a day and drive Roselle, 2:12; Dr. Charles W. Bryson has volunteered Toughest, 2:11 1/4; "for the sacrifice," as he puts it on his acceptance; William A. Clark, Jr., will have three of his sets in his harness, Will Clark, 2:11; Daniel J. 2:11 1/4; and Master Delmar, 2:17 1/4; J. G. McGinnis hopes to pilot Aftab, 2:13 1/4; and Virginia, 2:13 1/4, besides which others of slower make will be seen, among them G. L. Pierce's Laura G., 2:19 1/4; A. J. Pounder's Glen, 2:17; E. R. Guirado's Casey, 2:19 1/4; A. I. Stewart's Dewey, 2:13 1/4. This is a thoroughly representative lot of horses and drivers, and it is hard to see how the matinee can fail of success with such performers competing.

Among others who have decided to make the trip are: Dr. C. W. Bryson, R. P. Maribay and daughter, W. H. Berry, H. N. Henderson, Byron Ekstromer, A. W. Bruner, Ed Delaney, Dr. Ralph Hays, Dr. W. W. Hitchcock, R. J. Adcock, R. V. Cooke, J. V. Vickery and daughter, R. B. Urmon, R. W. Brydon, William Garland, J. G. McGinnis, P. B. Michel, M. B. Mosher, L. J. Christopher, Al Levy, Joe Desmond, Bob Smith, L. P. Keller, J. Mitchell, Dr. William Dodge, H. J. Zey, Nick Kramer, Allan Hunter, R. C. McCormick, R. I. Caruthers, J. W. Nickerson, Dr. W. A. Connolly, H. O. Sundrum, George T. Beckers, O. C. Carle, Curtis Coyle, Dr. H. Bert Ellis, Dr. M. J. Moore, Godfrey Fritz, J. A. Fairchild, W. A. Glascock, J. P. Galties, Thos. Hughes, R. Hyman, Capt. A. C. Jones, F. A. Johnson, Harrison T. Kendall, Frank W. King, Col. J. B. Lankershim, Ed Lloyd, F. W. Lida.

## The Stevens-Duryea TOURING CAR

This car weighs 1650 pounds. Aluminum body, 4-cylinder 20 H.P. (rated) but developing much more. It is the swiftest, liveliest, sweetest running light car made today. You cannot afford to buy ANYTHING else until you have tried this car. Perfect control, absolute silence, speeds up to 50 miles per hour. Takes nearly everything on the direct drive.

Our sample car is on the way now and deliveries will be good.

**\$2650.00**  
**The Stevens-Duryea RUNABOUT**

The standard runabout of quality. The most popular car in Los Angeles today. DO YOU KNOW that TWO-THIRDS of the automobiles used by physicians in Los Angeles are Stevens-Duryeas?

**\$1400.00**  
**Western Motor Car Co., Agents**  
415 South Hill Street

## THE VERDICT OF EXPERTS: "1905 Four Cylinder Pierce Arrows are the Best Cars Built in America."

Noiseless, Powerful, Comfortable, Durable, Beautiful, Economical. The roomiest side entrance. The simplest to operate. No chains to rattle, wear and break. No sight feed oilers to adjust.

Pierce motors have mechanically operated inlet valves and are governor controlled. Automatic Carburetion. Mercedes transmission. "The Automobile" of March 4 says: "Finally this year seems to have witnessed the total extinction of the automatic type of inlet valve, while automatic carburetors and Mercedes control have taken firm hold of the motoring public."

**BE SURE TO INVESTIGATE THE PIERCE BEFORE BUYING.**

**Salesroom and Garage, 701 to 705 S. Main St.**

PHONES: Home 4810; Main 1822. Llewellyn H. Johnson, Representative.

**1905 Rambler**

We announce the arrival of the first carload of Side Door Surveys the latest improvements are combined in this elegant vehicle.

The four full elliptic springs of the Rambler have but to be tried to be appreciated. Their adoption on the Rambler marks an era in motor construction and an era of comfort that was not copied by other manufacturers.

The Rambler engine expends no part of its power in keeping its cylinders cool. The thermosiphon system which has become a part of the Rambler has beyond all question or doubt proven its efficiency.

**Ramblers \$850 to \$1,150**

**W. K. Cowan, 830-834 So. Broadway**

### PIONEER MOTOR COMPANY

420-422 South Hill Street  
Los Angeles, Cal.

#### WHAT DOES AN AUTOMOBILE COST?

More price does not always represent actual cost. The first price of a car may be but a little compared to the expense of operation and maintenance.

A new car may cost as much again in repairs before the owner's end.

All depends upon whether a car was made right in the first place. The Pioneer is a better car than any ever made before.

It is EASIER TO GET AT. All working parts almost instantly accessible. Don't have to tear down the car to reach them.

It is EASIER TO UNDERSTAND. Because our new construction is the simplest yet devised.

It is EASIER TO MAINTAIN. No waste of power through chains or belts. No damaged bearings through faulty lubrication. No heavy battery expense—because we have magnetic ignition, and use batteries for starting only.

It is EASIER TO MANAGE on the road. Steer and put steering gear almost wedge and "click" car and passengers. Winton air control gives you speed from four to sixty miles an hour without moving a lever.

It is EASIER TO RIDE IN. Luxuriously comfortable upholstery, and those remarkable Winton Twin Springs not only make motoring pleasant for passengers, but also extend the life of the engine and save half the wear on the tires.

These are outline statements of Winton facts. Read the details in Catalog No. 1.

See our new models. Demonstration to parties interested.

# BRENT'S

We push goods free and ship them free to nearly all points in Southern California. Our own wagons deliver goods to Pasadena, Hollywood, Tropic, Glendale, Dolgerville and other near-by towns.

We sell mail orders promptly and satisfactorily.

All goods are marked in plain figures—one price to all.

We have plenty of everything that we advertise.

We don't advertise one or two articles at a low price in order to attract the public, but we sell all goods at all departments at low prices.

## Our Credit System Is Very Different

The more regulations imposed by the Trust.

The Trust subjects you to much embarrassment and makes you

that you are under great obligations in buying on credit.

The terms demanded by the Trust are convenient and unjust.

Brent's credit system is more like a friendly understanding

between a patron and ourselves.

We are glad to sell goods on credit and we consider that pa-

trons do us a favor by coming here and giving us a chance to do

business with them. We take a warm and sympathetic interest in

the affairs of our patrons and are glad to offer suggestions and ad-

vice on the management of a home or a room. Many times we point

out very valuable money can be saved by making a

change in the arrangement or substituting certain articles. In every

case we are careful for the interest of our patrons, and our prices

are not only very much lower than the Trust's, but our credit terms

are more lenient to come and have a little chat about it whether

you want to buy anything.

## MIMS-SUTRO COMPANY

GOLDFIELD, NEV.

INCORPORATED.

CAPITAL \$1,000,000

"The Goldfield Mining Brokers Who Have Made Goldfield's Gilt-Edged Securities Famous"

# The Flower of America's Great Mining Engineers Pronounce Bullfrog a Marvel

## Immense Bodies of Ore

The Bullfrog district is not much over six months old, but is a wonder. Close on the heels of the discoveries at Goldfield came those of Bullfrog, seventy miles to the south. Eighteen months ago Goldfield was the scene of a stampede. When the discoveries were made at Bullfrog, a second stampede took place. Every horse and vehicle was pressed into service, and many walked seventy miles over the desert sands to Bullfrog. Many brought tents with them, and at night after a weary day in the hills, they spread their blankets on the ground with the sky above them for a roof, and with the music of the burro's bray and the coyote's yelp, they laid down to sleep and dream of the riches the morrow would bring forth.

In the six months that have elapsed since that time the developments have shown even greater riches than were then dreamed of.

Properties have already been developed in the short time that has elapsed that have produced high-grade shipping ore, and have realized cash therefrom from the smelters at Salt Lake City. A score of other properties have been developed that have been pronounced by mining engineers to be sure producers for the next two decades. Immense bodies of ore lie in open view, disclosed by outcroppings, and by shafts sunk in few cases to a depth of 50 feet.

The mining claims of the Nonpareil Bullfrog Co., one of the companies described below, were among the first discovered, and their surface indications, added to the fact that they lie in a direct line with a known producing ledge of high grade ore, stamps them as an integral part of the new gold ore producing region of Southwestern Nevada.

## Permanency is Assured

Geologists and mining engineers are a unit that that part of the Grape Vine Mountain range which commences at Bullfrog and runs in a northwesterly direction to Tule Cañon, hard by the California border, will prove in the near future to contain the greatest quantity of pay ore that any other stretch of mountainous country in the world has ever disclosed. The distance between Tule Cañon and Bullfrog is 25 miles, and discoveries almost identical with those of Bullfrog have been made at Tule Cañon. The same geological formations are in evidence at Bullfrog as are seen at Tule Cañon. At Tule Cañon development has been in progress for a longer time, and there are several proven properties in the district, in which the ore bodies are seen to be

larger and values greater as depth is attained. This is an unerring stamp of permanency.

In view of the fact that at Tonopah, only 100 miles north of Bullfrog, five years of mine-working has resulted in the blocking out of a hundred million dollars worth of ore underground in a single mine, where the surface indications were not as good as those of Bullfrog, one need not necessarily be in an optimistic frame of mind to arrive at the opinion that Bullfrog opportunities at this moment are tremendous in their possibilities, and that it is more than probable one will see within a short period of time a dozen Bullfrog mining ventures turn out to be bonanzas.

## A Rare Opportunity

If this deduction be true, and there is every reason to believe that it is, then the property of the Nonpareil Gold Mining Co., which lies in the heart of the Bullfrog district, has a meteoric career before it.

There is not a gold producing mine in the world that was not once only a prospect.

Three years ago, stock in the famous Montana Tonopah mine, which is now selling at \$2.00 per share, could be had at 50 cents. Four months ago stock in the Original Bullfrog mine, which is now selling at 45 cents per share, could be had at 10 cents. Five months ago stock in the famous Sandstorm mine of Goldfield could have been had at 15 cents per share, and it is now selling around 75. Eighteen months ago the entire Jumbo mine at Goldfield could have been bought for \$4.00; since then there has been realized from ore shipped out of the Jumbo mine, a million and a half. There are a hundred instances of this kind which apply to Tonopah and Goldfield, which lie in the same mineral belt as does Bullfrog, that could be cited.

All of the great fortunes that have been made in mining at Goldfield have been secured through persons purchasing stock or interest in mines at their inception, at a nominal price.

## Why Opportunity is Offered

It is the practice in Southern Nevada, and, in fact, throughout the entire mining country of the Far West, for mining companies to realize funds for development purposes by the sale of stock, at a nominal price, at the outset. From sixty to seventy per cent. of the stock of every company as a rule goes to those who put up the money for the purchase of the company's property and as most of this money is raised by men who know the district and

are interested in dozens of other enterprises, they are glad at the outset to avail themselves of this means of engaging outside capital.

It also accomplishes another purpose. Once an investor outside the mining region proper puts his money into one of the mining properties, his interest is focused on the mining situation of the State, and the task of securing the capital at short notice for other enormous mining enterprises that come along, and are bound to continue to develop in a region where nature has apparently distributed her wealth so prodigally, is a simpler matter.

The history of all great mining sections shows that the small investor is the man who, more than any other, contributes to the up-building of great mining camps. Until millions of tons of ore underground were blocked out at Tonopah, eastern capital held back. Until millions of dollars worth of ore were shipped out of Goldfield, even successful mine operators of Colorado, who all their lives struggled with the problem of finding capital to develop good prospects into producing mines, held back. The history of the Alaska Copper Company's mines and of other big Montana and Colorado mines show that the millions that were paid for them could never have been paid but for the fact that the investor of moderate means was willing to gamble in the game with his capital to a certain extent to help develop a good prospect into what might turn out to be a great mine.

## The Moderate Investor's Gain

Goldfield has rightly been termed the poor man's camp, for there the money of the poor man has gone to purchase stock sold for development purposes in the early stages of the camp. Thousands of men in moderate circumstances throughout the country have profited enormously for this reason. They have been able to invest at an early stage. It is impossible at this time to even approximate what their profits will be when the mines have been fully developed, and the ore underground is fully blocked out. When that time arrives the big operators of the East will send their comment home to the district and measure with a tape line the exact quantity of ore that is disclosed, and then will hear of the sale of mines for millions to the big capitalists. Then only will the day arrive when a proper reckoning can be made. The flower of America's mining engineers who have visited the Bullfrog district and examined the ore deposits there, as disclosed by the outcroppings on the surface and at the short depths so far reached by development, are in the opinion that the ore bodies at Bullfrog are larger than at Goldfield, and that while there may not in all cases be so high, what the Bullfrog district lacks in high values is more than overborne in quantity, and that the men who successfully get in on the ground floor of a likely Bullfrog prospect is laying the foundation for a fortune.

## Here are Two Bullfrog Gold Mines

## We Back with Our Reputation

## Gold Ledges Are in Sight. Both Mines Sure Producers

### OUR OFFERING

## Nonpareil Bullfrog Shares at 10 Cents

## NONPAREIL BULLFROG GOLD MINING COMPANY

Capital Stock, \$1,000,000

Divided into One Million Shares of \$1 each. Full Paid and Non-assessable

Treasury Stock, 300,000 Shares

### The Company's Great Property.

The property of the Nonpareil Bullfrog Gold Mining Co., is situated about three-fourths of a mile from the famous Benny Hasleton group of mines in the Bullfrog mining district.

It consists of five mining claims, namely, Nonpareil, National, Atlantic, Original and Combination.

On the surface of the 100 acres owned by the company a vein of gold ore is disclosed two feet wide that widens out to six or eight feet at a depth of ten feet.

Assays from \$10.00 to \$20.00 per ton have been made of grab samples taken from this vein. In several places assays have also been made from stringers in which free gold is seen with the naked eye. These show values "up in the pictures."

In another direction on the property there is disclosed on the surface a vein of porphyry, sixty feet wide, carrying stringers of quartz from one to six inches wide. The formation here is identical to that of the famous Ladd & Benson property, one of the original discoveries at Bullfrog, and already one of its greatest producers. Assays of ore taken here on the surface show values of from \$4.00 to \$8.00.

The property has only just been taken over, and development work has only just been commenced. The prospects are tremendous. The property lies in a direct line with the lead on the great

Benny Hasleton. The Benny Hasleton vein disappears in the hill 3000 feet away. Mining engineers who have examined the property of the Nonpareil are convinced from the trend of the Benny Hasleton vein that the sinking of a shaft on the Nonpareil property will strike the Benny Hasleton vein at a depth of a few hundred feet.

### Practical Mining Men at the Head.

W. J. Douglas, president, is a far famed mining engineer. He became one of the original owners of the now famous Montana Tonopah mine when it was nothing more than a sandy stretch of desert, and gave no surface indications of ever becoming a great mine. Mr. Douglas' opinion, that on account of its geographical position, it would at a level of 500 feet show immense ore bodies akin to the great Tonopah mine which owns the Mispah ledge, has been vindicated, and stock in the company which was originally sold for development purposes at 25 and 50 cents per share, is now quoted at \$2.00. Mr. Douglas, in addition to being a director in the Montana Tonopah, is also an officer in half a dozen other great Tonopah and Goldfield mining companies, and is the superintendent of the only ore reduction mill in Tonopah, in which he is part owner. He was also one of the original owners of the Tonopah Midway, which has also materialized into a great gold-producing mine. Development stock in the Tonopah Midway was marketed at a shorter

price than that of the Montana Tonopah, and is today selling around \$1.25.

George Wingfield, vice-president, is associated with United States Senator George S. Nixon of Nevada in nearly all of Mr. Nixon's mining ventures in this country. Mr. Nixon himself is one of the most extensive mining operators in Nevada. Mr. Wingfield has amassed over a million dollars in the past three years by getting in on the "ground floor" of half a dozen Tonopah and Goldfield mining enterprises that have made good. His acquaintance with mining men is of the widest range, and his success is due entirely to his ability to judge values.

S. H. Kittle, treasurer, is the cashier of the Nye & Ormsby County Bank of Goldfield, and has a record of never having been connected with a mining failure. As cashier of the Nye & Ormsby County Bank, Mr. Kittle passes upon loans and mining securities many times each day. He is compelled by reason of his position as cashier to become informed as to values of all mining stocks. His acceptance of the treasuryship stamps the company's securities as a conservative investment from the financier's standpoint.

John Reynolds, superintendent, is a well-known mining man of Goldfield, who has had an extensive experience of mine management at close range. He enjoys unusual facilities for proper mine administration, having had besides his extensive operations in Goldfield, successful experience in mine management in Colorado and Montana. He is highly thought of by all mine operators in the district who know him.

### The Cyclops Bullfrog Gold Mining Co's. Property.

Near the center of Bullfrog lies the property of the Cyclops Bullfrog Gold Mining Co. It consists of five full claims of 100 acres, namely, the Cyclops, the Vulcan, the Aurora, the Eureka and the Empire.

These lie 4000 feet from the already famous Benny Hasleton group that have been recently bonded by Judge Johnson for \$20,000 cash, and a large consideration on time. On the Benny Hasleton a ledge 25 feet wide has been uncovered.

There the vein crops 3000 feet, and assays show values in the thousands.

The vein on the Cyclops crops for 150 feet and is four feet wide. Average samples across the surface show values of \$15.00 per ton and \$25.00 per ton.

Development work has only just begun, and not a shaft has been sunk farther than ten feet. At the same depth where great values have been demonstrated in neighboring mines, it is believed by mining engineers that have prospected the property that tremendous values will be shown.

However, a big body of low-grade ore is already disclosed, and if greater values are not encountered as depth is attained, it will not change the complexion of the property as a great mining proposition.

### Facilities for Milling.

The Tonopah and Tidewater Railroad has been graded within forty miles of the property, and when completed will pass through the center of the Bullfrog district. The Tonopah Railroad is now extending to Goldfield, and will unquestionably be further extended to the Bullfrog mining district. The supply of water is greater than

found anywhere else in the desert country. The Amargosa River flows directly through the district, and supplies sufficient water to operate mills of several thousand stamps capacity. This water is pure and absolutely free of alkali.

About ten miles distant from the Cyclops Bullfrog Gold Mining Co. good timbering in abundance can be found in the Grape Vine Mountain range.

**Permanent Ore Bodies.**

A sixty-mile telephone and telegraph line at enormous expense has already been built into the district, which will give an idea of the probable permanency of the mines of Bullfrog. Big capital is never invested in telephone and telegraph lines unless the best mining engineers that can be consulted agree on the permanency of the ore bodies.

Goldfield is already famous for the high grade ore that has been shipped within a year, totaling over \$4,000,000. Most of this ore has assayed \$200.00 per ton. In Bullfrog the general values that will be obtained are not believed to be so high, but the best mining engineers in the country pronounce the ore bodies to be larger. The property of the Cyclops Bullfrog Gold Mining Co. may be rated as a big milling proposition of medium grade ore, with sufficient ore deposits to warrant the construction of a twenty-stamp mill that can be operated continuously and profitably for the next decade.

**A Directorate of Practical Mining Men.**

W. P. Douglas, president, is the superintendent of the Tonopah, Nevada, and Milling Co. He is also a director in the famous Montana Tonopah, stock in which is now selling for \$2.00, and of which Nevada mining men who came into the State before Tonopah had a

place on the map, and he has produced hundreds of thousands of dollars by his ventures. He depends not on the opinion of others, but on his own judgment as a mining expert to determine for himself which properties of the district he shall connect himself with, and he enjoys the reputation of being not only a sagacious mining man, but of being one of the most rapid and successful in the district. Mr. Douglas has examined this property, and is the mining engineer of the company. The foregoing facts are narrated from the data supplied by him. They are not relied upon in every particular for particular dependence upon the opinion of anybody else, except in so far as the particular depends upon the opinion of his friend, Mr. Douglas, who is one of the original owners of the Bullfrog Extension mine, and if the Bullfrog townships. He is one of the best miners of the Bullfrog district, and knows every inch of the ground, and has determined the Cyclops property as one of the best looking in the camp. In arriving at this determination Mr. Douglas has personally employed facilities at first hand for examination of the property, and is particularly dependent upon the opinion of anybody else, except in so far as the particular depends upon the opinion of his friend, Mr. Douglas, who is one of the original owners of the Bullfrog Extension mine, and if the Bullfrog townships. He is one of the best miners of the Bullfrog district, and knows every inch of the ground, and has determined the Cyclops property as one of the best looking in the camp. In arriving at this determination Mr. Douglas has personally employed facilities at first hand for examination of the property, and is particularly dependent upon the opinion of anybody else, except in so far as the particular depends upon the opinion of his friend, Mr. Douglas, who is one of the original owners of the Bullfrog Extension mine, and if the Bullfrog townships. He is one of the best miners of the Bullfrog district, and knows every inch of the ground, and has determined the Cyclops property as one of the best looking in the camp. ### Two Hundred Lots to Be Sold in One Block (Mortgage Foreclosure)

On electric car line with sewer and electric light service. This whole property for \$15,000.  
A RARE BARGAIN, as these lots are situated on the bay along the celebrated "Clif Drive." An active man can double his money in 60 days. Address

**J. W. FORGEUS OR D. W. JOHNSTON**  
Santa Cruz, California

...the some of the Coast teams, is in the spring this spring than last fall, and feels confident of having a good crop of colts. He has a "slow" and uses it a great deal in his chinch with very good effect. Mixed with occasional curves and fast ones, he is a very puzzling delivery and has a good deal of it up in the air easy flyouts. Salary differences mean stand between Mason and Morton. The latter is in the market with the Los Angeles club if he is willing to work for a little less money.

**BUSH RACING.**

Take books are out for the main event to be run this summer at Seattle and Portland at the Woodward and the Portland races, respectively. The management promises that \$1000 will be distributed for the races every day that each Wednesday there will be a knockout or purse with \$500 added.

Seattle meet will run from May 27 to July 19, both inclusive, and the Portland races will be from July 22 to September 1.

There are eleven stake events for Seattle meet and ten for Portland. Seattle the opening handicap will be worth \$4000 to the winner, with \$5 to nominate and \$25 additional to start, the distance being six furlongs. Then comes the Executive Handicap of \$1000 at one mile; the Seattle Derby of \$1500 at one and one-quarter miles; the Celebration handicap of \$1500 at the same distance; the Club Members' handicap of \$1000 and three or four other handicaps of \$700 each.

For the Portland meeting the best handicaps are the Irvington of \$1500 at a mile and a quarter, the Clark handicap of \$1500 at a mile and a quarter, and the Labor Day handicap of \$1000 at one mile. The cards for both places will be about the same and offer a summer's diversion for those others who would just as soon race in the bushes as to take a chance against real racing.

Frank Skinner, Horace Egbert and Van de Venter will be the presiding person at both tracks and any information about the races can be secured from Frank Skinner at the Oakland track.

**Our Readers**

Should be all means visit Santa Cruz before returning to the coast. The following is this beautiful spot furnished by Hubert Co.

**Not Looks that Win.**

"Kid" Yanger, whose lack of beauty wins him in pugilistic circles the title of "The Ugly Indian," has a great chance to become a champion pugilist. Lissie Winters consorted to become Lissie bride:

"It ain't looks that win a girl. It's brains. A guy can do what he can make good at that gets 'em."

This is true Darwinian philosophy. Fittest to survive is fittest to win. The most wicked or most cunning fighter will win the prize. The prize is the prize cave girl. The young Indian was in war or in chase the right to matrimony. Strength, courage, skill, not beauty, make in all ages an "eligible prize."

So today the novel hero who is "handsome as a Greek god" is out of it. Picturishness ugliness is considered of no account. The most cunning, strength or inner worth fit for a world of struggle. Burtly football player, keen lawyer, brilliant writer or what not—let "Algy" or "Monty" be capable of bringing plenty of credit to his name. He may be as ugly as the proverbial.

And herein the novelist, like the philosopher of the Yanger school, mimics fact. "It's what a guy can make good at that gets 'em."—York World.

## NOT UNEASY ON FORESTRY.

SANTA MONICA DOES NOT FEAR THE REMOVAL OF STATION.

Loss to State by Removal of Trees that Have Been Growing for Fifty Years Would Be Great—Deplorable Tact to Head Off Salvage on Steamer Cascade.

(SPECIAL CORRESPONDENCE OF THE TIMES.)  
SANTA MONICA, March 11.—This town feels no uneasiness over the possibility of losing the forestry experiment station at Santa Monica. Caden. One bill was passed making an appropriation of \$100,000 for the reconstruction of the buildings recently destroyed by fire and another made its way through both houses conferring upon the regents of the University of California authority to exchange the tract of twenty acres included in the site for another larger and more advantageously situated tract.

This exchange is contingent upon the judgment of the regents and the Governor, whether such exchange shall better serve the purpose for which the station was originally established. The new law provides that within ninety days the regents may consider such offers of exchange as shall have been made, provided the lands so offered shall be within the climatic conditions of the southern coast belt.

If an exchange is to be made it must be made within six months. Superintendent Stuart of the station is of the opinion that there will be no exchange, as the loss to the State by the removal of trees that have been growing for fifty years would be too great. To move would be much like beginning over again. The station is in a very desirable, as well as picturesque and romantic, it has been generally understood that the title to the land embraced in the forestry station would revert to the donors in the event that it should be abandoned as a forestry station. This is an error. The land was deeded to the State without any reservation.

**PLANNED FOR THE SALVAGE.**  
When the news was first received here that a steamer had been wrecked near Port Los Angeles or Point Dume, the officers in charge at the port were informed of the information. They said they had heard of the wreck and presumed there could be none. It is believed that their object in giving out false information was through fear that a tug from Redondo might reach the wrecked Cascade before the Collis could steam to it from San Pedro. In that event the Collis would have lost the \$100,000 salvage for which her officers have listed the Cascade.

**SANTA MONICA BRIEFS.**  
The City Trustees have undertaken the improvement of the narrow strip of land bordering the sea for a mile along Ocean avenue. This parcel is known as Linda Vista Park. It has been surveyed and plowed and harvested and ornamental trees and shrubs are being planted. Three hundred trees have already been ordered and will be planted systematically.

San Pedro's power launch Alpha has visited this bay twice recently in quest of sardines. But she has returned home without reward. The sardines are not to be found. Heretofore it has been no trick for the Alpha to load herself in the gulches in a few hours. Where the sardines are spending their time is the question that is troubling the Alpha's crew.

The work of repairing the Santa Monica pleasure pier on North Beach has been commenced. The recent high tide washed about three hundred feet of the structure into the sea. A schooner was engaged today to off-load in unloading planks and piles. A driver is in position and it will be put a few days until there will again be pier wharf.

Rain has been falling all day. This caused a postponement of the Breakers-Rainbow League basketball game scheduled for this evening.

Bold thieves in the night burglarized California avenue and dug up and carried away several palms that had been planted only a few days before.

**DELIRIUM OR DEATH.**

Terrible Effects Produced by Certain Plants and Weeds Grown in Mexico.

(Mexican Herald.) The appointment of special inspectors to see that Indian women do not sell "marhuana" or other dangerous plants in the market of the city is a move in the right direction.

Marhuana is a weed used only by people of the lower class and sometimes for soldiers; but those who make larger use of it are prisoners sentenced to long terms. The use of the weed and its sale, especially in barracks and prisons, is very severely punished, yet it has many adepts, and Indian women cultivate it because they sell it at rather high prices.

The dry leaves of marhuana, alone or mixed with tobacco, make the smoker wilder than a wild beast. It is said that immediately after the first three or four draughts of the weed, the user begins to feel a slight headache; then he sees everything moving round; and finally they lose all control of their mental faculties. They see bands of lions, tigers, devils and unheard-of monsters coming to attack them. They are not afraid at all, but feel themselves brave and strong enough to fight and annihilate so many enemies. Everything, the smokers say, takes the shape of a monster, and men look like devils. They begin to fight, and, of course, everything smashed is a "monstrous" killed. But there are imaginary beings when the wild man cannot kill, and these are what begin to inspire fear, until the man is panic-stricken and starts to run. Not long ago a man who had smoked a marhuana cigarette attached and killed a policeman and badly wounded three others; six policemen were needed to disarm him and march him to the police station, where he was put into a straight-jacket. Such occurrences are frequent.

People who smoke marhuana finally lose their mind and never recover it, but their brains dry up and they die, most of the time suddenly.

There are other plants equally, if not more dangerous, among which is the "tolvacha," a kind of a loco weed. The seeds of this plant, boiled up and drunk as tea, will make a person dangerously insane for all his life.

Among some classes of Mexico it is stated that Carlotta, the Empress of Mexico, lost her mind because she was given tolvacha in a refreshment. Empress Carlotta was the wife of Emperor Maximilian, who was shot in Queretaro. She lost her mind immediately after her trip from Mexico to Rome, and since then she has been desperately insane. The statement that she lost her mind because she was given tolvacha is a most unfounded one; tolvacha makes a person lose his or her mind immediately after drinking it, and the Empress became insane many days after her departure from Mexico.

There is in the State of Michoacan another plant, the effects of which upon the human organism are very curious. The plant grows wild in some

## OUR NEW HOME TRACT

Directly opposite the main entrance to "Ascot Park" fronting on beautiful South Park Avenue, and lying between "Ascot Boulevard"—(120 feet wide)—and San Pedro Street.

The growth of Los Angeles southward is as fixed and proven as Fate. Ascot Place lies in the beaten path of that growth, where values are increasing with each rising sun!

THE IMPROVEMENTS are of the highest grade; 4 and 5 foot cement sidewalks, 18-inch cement curbs; graveled and oiled streets. Already completed and paid for.

RESTRICTIONS have been placed at \$1000; high enough to insure a good class of houses, yet not prohibitive; temporary structures will be permitted in the rear of lot under certain conditions.

SIZE OF LOTS 40x150; 45x150 and 50x135.

FOR A HOME the location is ideal; every city convenience; perfect soil for fruits, flowers and vegetables. Every charm of a home may be realized at ASCOT PLACE.

CAR SERVICE, five car lines now run direct to the tract with the sixth—the new "Moneta Avenue" line now building—60 feet wide with transfers to all parts of the city.

AS AN INVESTMENT. More fortunes have been made through the advance in realty values than from any other ONE FACTOR; your success depends SIMPLY upon your knowing WHEN TO ACT! THE TIME IS NOW!

There are only 43 lots in "Ascot Place" and when the sun has sunk into the GOLDEN West tonight—RAIN OR SHINE—more than half will have been sold. YOU'LL SEE!!!

**\$475 to \$550**

We offer TERMS within the grasp of EVERY MAN WHO HAS THE AMBITION TO PAY FOR HIS HOME.

**\$50 Down**

And \$20 per month or \$5 per week; with 10 per cent. off for cash.

NO INTEREST AND NO TAXES

Don't wait too long. If you can't go today you must go tomorrow, for time and tide wait for no man. Better get in at "Ascot Place."

parts of Michoacan, and natives had observed that whenever they traversed a field where there were many of such plants they lost all notion of place and place where there are many of these plants he forgets where he is going to, where the place is and even where he is and what he is doing there. It takes from three to four hours for a person affected by the smell of the plant to recover his consciousness, or rather the full control of his mental faculties. This plant was sent to the St. Louis Exposition and commanded considerable attention from savants.

Another very curious plant is the one called "de las Carreras." In some places where it grows. When a person drinks a brew of the leaves or seeds of the plant he feels an impulse to run, and will run until he drops dead or exhausted to such an extent that he will die in a few minutes. It is of no use to either tie the legs of a person who has drunk the beverage or to lock him in a room, he will move or struggle all he can until he is exhausted as if he had run miles and miles.

Helped to Elect Roosevelt.  
Representative Brynmar of Tennessee led Martin W. Littleton, president of the borough of Brooklyn, up to the White House and presented him to President Roosevelt. "Mr. President," he said, "I want you to know the man who did more for you in the last campaign than any other man on earth." "How's that?" asked the President, looking Littleton over carefully. "Why," Brownlow replied, "Littleton is the person who made the nominating speech for Judge Parker at the St. Louis convention."—(Washington Post.)

## ASK US ABOUT

It contains ALL the medicinal elements of cod liver oil, actually taken from genuine, fresh cod-livers, with iron and other body building ingredients, in a delicious palatable and easily digested form. It is, therefore, recommended as the

## GREATEST MODERN STRENGTH CREATOR

known to medicine—the original GUARANTEED MEDICINE FOR

**Chronic Coughs—Hacking Coughs.**  
Sure signs of danger ahead. VINOL is the exact medicine needed. It soothes the throat, and it surely heals and restores the irritated, inflamed tissues that cause the cough. Try it at our risk.

**Bronchitis—Sore Lungs.**  
There is no medicine so valuable for restoring strength to the throat and lungs as VINOL. It is the greatest lung medicine known. This we guarantee.

**Debilitated—All Tired Out.**  
It is not natural to feel continually tired. We guarantee VINOL will build strength and vigor to the debilitated, run-down system.

**To Gain Flesh—To Get Strong.**  
We know VINOL will make flesh faster than any preparation containing cod liver oil. We can prove that VINOL quickly creates strength.

**Old People—Weak People.**  
Need a strengthening and invigorating restorer. VINOL is of singular value in such cases. VINOL positively rejuvenates old folks. Money lost is not settled.

**Nervousness—Irritability.**  
Overwork, nervousness, due to overwork, insufficient nourishment or slow down of general health. VINOL actually rebuilds the entire body and restores nerves.

**Pale Women—Pale Children.**  
Pale, haggard faces show that the blood is poor and this, also, indicates poor digestion. VINOL will correct such troubles as surely as the sun melts snow.

**Nursing Mothers—Weak Mothers.**  
You know the life and future development of the child depend upon the nourishment. VINOL helps nature change food into body material, and cost nothing unless it benefits.

THIS WARRANT IS PRINTED ON EVERY VINOL PACKAGE

We mean exactly what we say in this Warrant of reservation or equivocation. We know VINOL is a tonic preparation and general restorer of health and medicine. We bank our reputation and fortune on its wholesome, delicious and most efficacious, and on the fact that no other maker can produce anything like VINOL. The statement that any other medicine is the same as VINOL is false. Don't take our word for it—try it at our expense—if it does not help you we stand the cost you nothing.

## NO NEW GAME IS FOOTBALL.

GREEKS AND ROMANS PLAYED VARIETIES OF IT.

First Appearance in England Seen Followed William the Conqueror, Spent at One Time Interdicted by King James—Its Sudden Rise to Popular Favor.

The story of football begins far back in history, and has, except for a brief period, steadily grown in favor. Even in the early days of Greek civilization a simple form of this sport was known. Then a rude ball, made of bladder or rough skin, was used, and the players propelled it by kicking, not being allowed to put the ball forward in any manner, by the use of the hands.

The Romans, too, were expert players. They called it *harpastum*. As the history of the word football, they utilize the Greeks, were permitted to take the ball in their hands and carry it, as well as kick it.

Football is a much older game than cricket, and is more suitable for the winter season. In fact, this sport was called the "winter game" by the Romans. It is believed that William the Conqueror, who introduced it into England in 1066, was the first to introduce it into Great Britain in 1066.

In 1066, when the Normans were no children, no code of rules, and no special regulations, in fact, football was a game of the people of all ages and both sexes were seen on the football field. In 1289, a statute was passed, to be found wherever there was opportunity for this spirited contest.

There seemed to be no limit to the game. Each person was permitted to use almost any means, fair or foul, to get the ball to the desired goal. So rough did the game grow that even throughout the city of London windows were broken, and in some cases, houses were damaged. The game was waged most fiercely. This was the case in 1314, when the game was played in London.

The game fell into great disrepute. Even in the time of James I the game was forbidden. The game was played in the time of James I, but it was not until the time of James II that it was again popular.

Now the game has again grown popular. It is now the most popular game in England. It is now the most popular game in England. It is now the most popular game in England.

Need a strengthening and invigorating restorer. VINOL is of singular value in such cases. VINOL positively rejuvenates old folks. Money lost is not settled.

**Nervousness—Irritability.**  
Overwork, nervousness, due to overwork, insufficient nourishment or slow down of general health. VINOL actually rebuilds the entire body and restores nerves.

**Nursing Mothers—Weak Mothers.**  
You know the life and future development of the child depend upon the nourishment. VINOL helps nature change food into body material, and cost nothing unless it benefits.

THIS WARRANT IS PRINTED ON EVERY VINOL PACKAGE

**SAINT BARNABAS.** March 11.—Manager John Hall of the Seattle team has had eighteen men in training here for a week. Some are promising young men who have never before played in the professional game, but this is the first time that young talent has been given attention from long-headed baseball managers.

Hall believes that he will develop his share of good players before the season opens. He has with him all parts of the country. Catcher Ralph Priddy, from Seattle, has been several years with Spokane, where he was considered a safe catcher and hard hitter.

Harry Curtis of Syracuse, N. Y., has had four years' experience as catcher on the Syracuse team, and is now playing independent ball over summer in very fact on his feet, although a large man.

Port Newman J. Bacon of Aurora, Ill., is having his first trial in the professional class. Jimmie Burns, who is holding down the second bag, is from Detroit, O. During the last three years he has played with San Francisco, the San Francisco Pacific National League, the Detroit American League and Toledo.

He is remembered as a fine pitcher. Infielder Burt Voorhees of Alhambra, Cal., has played good independent ball for four years and is now playing in the professional class.

John Kane, an outfielder from Chicago, has played two years with Pittsburgh. Kane, in the Missouri Valley League, has always hit over .300. James McHale, an outfielder from Alhambra, Cal., played with Seattle three years on the team and an all-around player.

Outfielder Fred Houis has during the last few years played with Cincinnati, St. Louis, and with the Boston Braves. He is a good player and a good pitcher.

Nick Williams of San Francisco has played with Minneapolis and Seattle. Besides being a good pitcher, he is a general utility man.

Charles Shields, a left-handed pitcher, has played in the Southern Pacific League, the American League and the Pacific Coast League.

Pitcher Henderson, another left-handed pitcher from Chicago, is making his first appearance in professional baseball. He is a fast 40-year-old pitcher.

He is well known on the Pacific Coast, and has been pitched in the last year. The youngest pitcher on the team is a young fellow from Ventura, who is a good record on his first try.

Three men have been divided into two teams and will play an exhibition game this afternoon.

# A HOSPITAL OR YOUR HOME.

## YOU CAN BE CURED QUICKLY—NOW—AT HOME.

### SICKNESS—WHICH?—HEALTH

#### Your Choice Determines Your Own Destiny and Your Future.

#### You Can Be Quickly and Permanently Cured by the Skillful and Successful Los Angeles Institute Physicians.

There is No Longer Any Excuse for Continued Illness.—There is No Middle Ground.—Your Friends Were Cured.—Big Fees Have Been Abolished.—You Can be Cured if You Will.

#### Any Disease—\$5.00 A MONTH—Medicines Are All Free.

#### Catarrh of the Bronchial Tubes

This condition often results from catarrh extending from the head and throat, and if left unchecked, extends down the windpipe into the bronchial tubes, and at times attacks the lungs.

"Have you a cough?"  
 "Are you losing sleep?"  
 "Have you a pain in side?"  
 "Do you take cold easily?"  
 "Is your throat sore?"  
 "Have you stitches in side?"  
 "Do you cough until you gag?"  
 "Do you raise frothy material?"  
 "Do you cough on going to bed?"  
 "Do you cough in the morning?"  
 "Are you low spirited at times?"  
 "Do you spit up pale, mucus matter?"  
 "Are you cough short and hacking?"

#### Catarrh of the Liver

The liver becomes diseased by catarrh extending from the stomach into the tubes of the liver.

"Are you fretful?"  
 "Are you nervous?"  
 "Do you get dizzy?"  
 "Do you feel fatigue?"  
 "Do you feel miserable?"  
 "Do you have cold feet?"  
 "Do you get tired easily?"  
 "Is your eyelight blurred?"  
 "Can't you explain why?"  
 "Constant sense of depression?"  
 "Is there a burning after eating?"  
 "Constant sense of pain in back?"  
 "Do you have itching in bowels?"  
 "Do you have rumbling in bowels?"  
 "Hurt you pain under shoulder blade?"  
 "Is there a throbbing in the stomach?"  
 "Do you have sense of heat in bowels?"  
 "Do you suffer from pains in temples?"  
 "Do you have palpitation of the heart?"

#### HOME TREATMENT

Our new and efficient Home Treatment cures promptly. **WRITE TODAY** for complete symptom blank—free—and be cured at once.

OFFICE HOURS—9 a.m. to 12:15 p.m. to 3 p.m. 6:30 to 9 p.m. Sundays 9 a.m. to 12 m.

CONSULTATION IS FREE

#### Your Little Child Suffers—She Cannot "Outgrow It" BECAUSE

She was born with a useless diseased mass (adenoids) in her throat, just behind the nose.

This causes snoring and mouth breathing, with catarrh and a nasal tone of voice.

**Deafness—Discharging Ears,**  
 asthma and bronchitis, with severe cough and (sometimes) of urticaria, are very common.

These conditions retard or prevent proper development of the child—both mental and physical. The result

**Dull, Stupid and Indifferent**  
 when she is wholly blameless.

The Los Angeles physicians have cured hundreds of these children in Los Angeles without a failure. They can cure your child without danger or delay.

#### Cured of Deafness and Catarrh

MRS. TIM MICHAEL, of Pasadena.  
 Says she was entirely cured of catarrhal deafness.

 Alhambra Bldg., 455 1/2 S. Broadway  
 Fifth and Broadway  
 Los Angeles, Cal.

#### Personal Knowledge Warrants Recommendation of Los Angeles Institute

MR. A. A. WILSON

#### Catarrh of the Stomach

This condition may result from several causes, but the usual cause is catarrh, the mucus dripping down into the throat and being swallowed.

"Is there mucus?"  
 "Are you constipated?"  
 "Is there vomiting?"  
 "Do you belch gas?"  
 "Have you waterbreath?"  
 "Are you light-headed?"  
 "Do you blush after eating?"  
 "Is your tongue coated?"  
 "Do you hawk and spit?"  
 "Is there pain after eating?"  
 "Are you nervous and weak?"  
 "Do you have sick headaches?"  
 "Is there disgust for breakfast?"  
 "Do you feel as if you had food in the stomach?"  
 "Have you distress after eating?"  
 "Is your throat filled with mucus?"  
 "Do you at times have diarrhoea?"  
 "Is there rash of blood in the head?"  
 "When you get up suddenly are you dizzy?"  
 "Is there constant gasping in stomach?"  
 "Do you feel as if you had food in the stomach?"  
 "When your stomach is empty do you feel faint?"  
 "Do you belch material that burns throat?"  
 "Is it stomach to full do you feel oppressed?"

pers actually referred to the performance as a musical "high jinks," an operatic "three-ring circus," and "a hot time in the old town," and used

News of Society—Gossip of Men and Women—Weddings, Parties, Dinners

dinner given recently by her hostess. One was given last Wednesday evening, covers were laid for twelve.

Shamrock Reigns.

Mr. and Mrs. Marion Welsh of No. 78 Garland avenue gave a delightful card party on Friday evening in honor of Mr. and Mrs. Clinton M. Corton of Gallup, New Mexico, who are spending a few weeks at the Angeles. The decorations were mostly in green in deference to St. Patrick's Day which is so near. The parlor, which is in itself daintily decorated in pastel green shades and gold and white, contained great strands of asparagus fern, and Dutchess roses and rare orchids from the host's own conservatory were effectively utilized. In the reception hall potted plants and ferns and white carnations appeared to advantage, while in the library great clusters of red roses and ferns were placed here and there. Over the dining-room table a canopy of smilax was erected and scarlet carnations adorned the table. The mantel was banked with ferns and carnations, and green shaded lights cast a soft light. The score cards were white, ornamented with hand-painted sketches of shamrock, and tied with green ribbons. Favors were shamrock-shaped filled with bonbons and lozenges, and candies were all carried out in the green color. At the close of the evening the guests were entertained in the first for the women, a beautiful brass fern jardiniere, to Mrs. F. A. Butler, and the second, a brass vase, to

and later a delicious supper was served. Those present were: Mr. and Mrs. Corton, Misses Louise Leasner, May Leash, Bertie Brooks, Edna Bear, Stuckelbach, Thelma Ovenshire, Meta Buchanan and Madeline Buchanan, Edna man, Stone, James Couts, Bush, Rankin, Chalmers, Sanders, Bent, Ovenshire and Buchanan.

Wife of Prominent Man Here.

Mrs. Baldwin, wife of Gen. Frank B. Baldwin of Denver, Colo., has arrived in Los Angeles to remain a week or ten days. She is at present stopping with friends at No. 224 North Broad street. While here she expects to visit all the southern resorts of interest.

Mrs. Leonard Entertains.

Mr. and Mrs. Alfred L. Leonard of No. 208 South Union avenue entertained on Thursday evening in honor of Capt. and Mrs. Arthur T. Skinner of Washington, D. C., who are passing the winter in Southern California. Cards were played and Miss Edith Webster of Chicago gave a number of vocal selections. Later, refreshments were served in the dining room, which was trimmed gaily with red and green, flowers and ferns being utilized. Those present were: Mrs. Van Leer Drouillard, Miss Ruth Jowett, Miss Edith Webster, Messrs. J. A. Jowett, John F. McDermott, Everett Hyster and Guillaume Leonard. Capt. and Mrs. Skinner have just returned from San Diego, and intend leaving soon for Santa Barbara and San Francisco.

Leisure Hour Whist Club.

The members of the Leisure Hour Whist Club were entertained on Tuesday evening at the home of Mr. and Mrs. John Luckenbach, No. 1029 South Alvarado street. The home was filled with a profusion of flowers and ferns, and the first prize was awarded to William Garland. It was a handsome cut-glass vase. The men's prize, a silver bill book, was given to Charles Canfield. Score cards were adorned with hand-painted wild flowers. Guests of the club included: Mrs. L. Jacoby, Miss Helen Pierson, Miss Jacoby, Rugby Rose, Edward Woods and Omer Smith.

Recent Wedding.

A recent wedding was that of Miss Berale Whiteley and George W. Tedford, the ceremony having taken place at the home of the bride's parents, No. 1142 East Twelfth street. The parlor was filled with a profusion of flowers and in the front room, where the ceremony took place, a canopy of smilax was erected in which strands of flowers and meshes lilies of the valley. On either side white doves swung, and over the heads of the couple was a bell of white carnations. As the couple approached the altar George Coffman played the wedding march, and during the ceremony "Maid and Mother-in-Law" was sung. The words of the ceremony were read by Rev. W. A. Knight. The bride wore a lovely gown of white albatross elaborately trimmed with white lace. Mr. and Mrs. Tedford have many friends in the city who were interested in the nuptials. After a short tour they will make their home in this city.

Alliance Francaise.

Music of a rare order was given at the monthly entertainment of L'Alliance Francaise, at Fremont Hall, Tuesday evening. The rich full mezzo of Mrs. Katherine Kimball Forrest filled the hall with a volume of melody, and sang Gounod's Serenade with the flute accompaniment by M. Auclair. Her encore was "Mamzelle's Open Thy Blue Eyes, Mignon." Both songs were sung in French with a most perfect pronunciation. Little Miss Gertrude Cohen swept the keys of the piano in Brahms's Rhapsody with the power of some master, and not only her own score but the youthful performer.

The comedy which followed the musical numbers was a jolly little affair called "La Grammaire," by Eugene Labiche, with a sort of ridiculous and laughter-provoking situations. Paul Farmer as the antiquarian, and especially good, and the other male roles gave scope for much clever mimicry. The father and pretended servant was played by Albert de Hostaing, and the absurd veterinary surgeon by Jules Volle. Miss Fuguesot took the part of the daughter in the comedy, and Miss Blondine was a funny little serving maid. The piano accompaniments for the evening were played by Mrs. Catherine Wilson, the programme being arranged by Mrs. J. A. LeDoux.

At Cathedral Rectory.

Monday evening at St. Vibiana's Cathedral rectory, Miss Jessie Smith and Fred Pemberton Scott were quietly married. The immediate friends and relatives only being present. After a repeat at the Angeles, the couple left for Frisco for a few weeks honeymoon. On their return to the Fremont Hotel. The bride is one of the pretty girls of Los Angeles, and the groom is one of the firm of Scott Brothers.

Luncheon and Matinee Party.

Mrs. Fred O. Johnson entertained with a luncheon on Thursday at the Hotel Westminster, followed by a matinee party at the Belasco theater. Guests included: Madamess Fred W. Flint, Aubrey Davidson, S. W. Garrettson and P. Simpson.

Luncheon for Board.

Mrs. Charles Lee Lewis of No. 2215 Leoti avenue entertained the members of the executive board of the Cosmos Club on Friday with a luncheon. The table was decked with pink carnations, and maidenhead ferns, and place cards were daintily decorated with hand-painted carnations. During the afternoon games and music were enjoyed and covers were laid for Mrs. Emma Greenleaf, George W. Jordan, Alice Anderson, Robert J. Howell, George C. Gainsley, Ada F. Ward, E. B. Root, Herbert Harris, H. G. Dean, James Scott, R. B. Guilberson and Miss Kirkpatrick.

Michigan Ladies Entertained.

Mrs. F. A. Blake and Mrs. C. E. Wilcox, entertained with a luncheon at the beautiful home of Mrs. Blake in Whittier, having as their guests members of the Los Angeles Michigan Society. The rooms were artistically decorated with red and green red carnations were used in the parlor, and polka-dotted the festive board, around which many witty toasts were offered. Mrs. J. E. Daltch offered toast "To the Michigan Ladies of California," and in the afternoon two gypsy songs were enjoyed and covers were laid for Mrs. R. King, J. B. Daltch, Anna Loveland, A. J. Ransom, John W. Winchell, S. Long, J. Albert Dugan, Minnie Ann W. J. Post, G. C. Bartholomew, W. G. W. Lester, D. C. King, Frank W. Snell, James Hart, John Winchell, Arthur Russell, Judge Hatch, Ethel Blake, Clara M. Wilcox and Misses Alice McClellan and May Elizabeth Daltch.

Dinner for Eight.

Samuel Atlas, a prominent citizen of Fort Madison, Iowa, who spent the winter in Los Angeles, entertained a number of friends at dinner on Monday evening at the Hotel Westminster. The table was adorned with clusters of American Beauty roses, and the affair was complimentary to Dr. Harry

Adams, and Mrs. Belle McCord, whose engagement was recently announced.

In Honor of Betrothal.

Mrs. Leah J. Seelye of No. 1515 South Figueroa street entertained on Friday evening with an informal evening in compliment to her sister, Mrs. Belle McCord, whose engagement to Dr. Harry Adams was recently announced. The home was decked with cut flowers and ferns, and music and games were enjoyed.

For Miss Hitchcock.

Mrs. H. E. Martens and Mrs. Armedia Coman entertained on last Wednesday at the home of the former, No. 113 East Adams street, in honor of Miss Ruth Hitchcock of Michigan. The afternoon was spent with music and games. Those who contributed to the pleasure of the afternoon were: Mrs. Cary, Miss Hitchcock, Mrs. Armedia Coman, Miss Dell Butterworth, Mrs. Gustave Smith. The singing of Miss Edna Darch was most enjoyable, and all were charmed with her sweet voice. Among those present were: Madamess Black, Darby, Madamess Miller, Drew, George W. Jordan, James Schultz, Smith, L. Carey, C. Cammon, Hitchcock, Hill, Tenant, E. T. Sherer and Misses Berger, Butterworth, Dell Butterworth, Callen, Bea Filbert, Hummell, Edna Darch, Hitchcock and Kellam.

Pre-nuptial Affair.

Dr. and Mrs. W. T. McArthur of No. 122 West Twenty-eighth street will entertain with dinner on Friday evening in honor of Mrs. McArthur's sister, Mrs. Purden Smith-Miller, and her future husband, Dr. W. H. Hall, Mont. who is expected to arrive in Los Angeles next Wednesday. On the following Tuesday, Mrs. McArthur will entertain with a luncheon for her sister. The marriage is to be a quiet affair and will be solemnized at the home of Mrs. McArthur on Wednesday evening, March 22. Mrs. McArthur will act as matron of honor. Miss Dr. Conroy of West Thirtieth street recently entertained for Mr. Miller.

Musicals and Card Party.

Mrs. L. Bromley entertained the members of the Students' Musical Club yesterday afternoon at the home of Mrs. J. Montana of No. 214 West Twenty-fifth street. Red berries and golden lilies were utilized in the decorations in the music room, where a program of songs and instrumental pieces was given. Those who contributed were Mrs. C. C. Heller and Miss Lucille Roberts and Miss Marjorie Meyers and Miss Eleanor Heller. Miss Lucille Roberts gave a number of readings. Score cards were golden lilies adorned with red ribbons, and prizes included a white decorated with scarlet geraniums. A dainty opera bag of pink silk was the golden prize. The bride wore a lovely gown of white albatross elaborately trimmed with white lace. Mr. and Mrs. Tedford have many friends in the city who were interested in the nuptials. After a short tour they will make their home in this city.

German Luncheon.

Mrs. John Brink gave a German luncheon on Friday in compliment to Miss Lindberg of Cincinnati, who is visiting in the city. In the dining room, where the members present were draped and apparatus ferns were over the chandelier. In the center of the table a goose, fashioned of white flowers was set. Place cards were decorated with Dutch girls. Dutch whist was played and score cards were set. The first prize, a Dutch pitcher, was won by Mrs. Stevens, and the second, a wooden stein, fell to Mrs. W. R. Davis. The concert, which was given by Mrs. Brink, was most enjoyable. The program was as follows: Mrs. Thomas J. Darmody, Mrs. Jack Hammer, Mrs. James Mackey, Mrs. Elmer Morrow, Mrs. Belle Newell, Mrs. A. Stevens, Mrs. Will Davis, and Misses Laura Ewald and Lindberg.

To Leave for Europe.

Mrs. and Mrs. J. F. Sartori of No. 725 West Twenty-third street expect to leave about March 21 for an extended European tour. They expect to visit Italy, Germany and Switzerland, and will sail from Boston, going East by way of New Orleans.

Wednesday Luncheon.

Mrs. W. P. Baker of No. 1421 West Twenty-fifth street gave a luncheon on Wednesday, having as her guests Mrs. Merriman, Drew, George W. Jordan, William Conklin, Rich Baker and W. E. Smith. The table was decked with pink flowers and ferns, and place cards were marked with questions.

For Indiana Girls.

Miss Grace B. Evans of No. 2611 South Main street entertained a number of girl friends on Saturday afternoon in honor of Mrs. Evans's prospective bride, Miss McDavitt of Indiana, who is visiting here. Miss Evans expects to marry George McDavitt of a prominent affair was in the nature of a farewell. Yellow was the prevailing color in the decorations for the different rooms, nasturtiums being used with ferns. Guests were Mrs. W. F. Kennedy, James Howland, W. E. Wing and the Misses John and Julia Fynn, Arthur Greene, Jessie Hartwell, Campbell, Zella Fray, Miriam and Helen North Kirkpatrick.

NOTES AND PERSONALS.

Mr. and Mrs. Harry L. Bennett, who were recently married in New York, have given up their apartments at the Hotel Green, Pasadena, and have moved into their new home, No. 1137 West Twenty-ninth street.

Herbert L. Reed of Tipton, Iowa,

is a guest at the home of his sister, Mrs. Charles H. Fayram of No. 1217 West Twenty-ninth street. Mrs. Jasper of No. 1055 West Seventeenth street entertained on Saturday with a party in honor of Mrs. Smith of Winchester, Ind., who is visiting her sister, Mrs. Gainsley of South Union avenue.

Mrs. L. Y. Vischer has moved from

the city to Ocean Park on account of her health. Mr. and Mrs. Frank J. Hart, with their twin boys and maid, have gone to Catalina for a short stay, joining a party of friends from Chicago.

Mr. and Mrs. A. H. Shore and

daughter, Blythe, of No. 2314 Pasadena avenue, have returned from San Francisco, where they went to celebrate the golden wedding anniversary of Mr. Shore's parents.

Mr. and Mrs. Charles H. Fayram of

No. 1217 West Seventh street entertained a few eastern friends on Thursday evening. Those present were: Mrs. H. McDowell, Mr. and Mrs. H. Jones, Mr. O. Jones, Miss Jones, Miss Linn Jones, Mr. and Mrs. Sho-

craft, Miss Shocraft, Miss Wilson, Harry and Nell McDowell, Herbert Reed and Mrs. Lapham. Mrs. Leah J. Seelye, Dr. Nettie E. Hammond, Miss Adams Seelye, E. M. Sanford and W. H. Cook, who for several years has been the New York buyer for the Hamburger Store of this city, having accepted the management of the Boj Marche Department Store of Seattle, Mr. Offutt joined his family here last Sunday morning upon his return from an eastern trip, and on Wednesday they left for their new home in the chilly north.

Mr. and Mrs. J. W. Congen of Cleve-

land, O., who have spent the last two months in Los Angeles and at Coronado Beach, left Saturday for Santa Barbara.

Miss Marie Helen Thompson, a well-

known Cumnock girl, has returned to Los Angeles after several months

spent in her former home in Louisville, Ky., and other eastern cities, and is now at residence No. 371 Figueroa street.

J. R. Toon of Bethel, Ind., is visit-

ing his cousin, R. Toon, of No. 1337 West Twenty-fourth street. Mrs. George H. Rees of Chicago is the guest of Mrs. E. G. Russell of No. 1241 Iowa street. Miss Myrtle S. Russell is spending a few days at the Hotel Arcadia, Santa Monica.

Mr. and Mrs. J. J. Holland, formerly

of West Ninth street, are now domiciled in their new home, No. 2413 Budlong avenue.

Excellent Opportunities.

For small ranches in Santa Cruz county, ideal places for seaside homes at remarkably reasonable prices. Write for full particulars. Robinson & Co., Santa Cruz, Cal.

So we bought tremendous stocks.

Besides the Shepherd checks in every desirable size and color-combination we have them in tweed effects, chevrot designs, self checks, plaids, self-colored figures, pin-head checks with embossed figures combined, self-colored figures, hair-line stripes—and solid colors as well.

Unquestionably the most varied assortments shown in the Southwest.

Seventy-five cents to three-fifty a yard.

OUT-OF-TOWN SOCIETY

Ocean Park.

MR. AND MRS. BENJAMIN F. HEAR are here from Phoenix, Ariz., for a few weeks. Mrs. C. Weiman is visiting this beach. Her home is in Chicago. David Evans of Salt Lake City is spending some time and money here. He expects to build a nice house on Windward avenue.

A. B. Sholly has returned to his old

home in South Bend, Ind., but will soon come back to this beach to reside.

Mrs. Ella E. McGovern of Colorado

Sparks, Colo., is the guest of Mrs. P. A. Valentini.

Mr. and Mrs. C. H. Heston

reached here from Blue Ridge, Ky., and other eastern cities, and will make their home here.

Mr. and Mrs. W. T. Farnsworth

street entertained Tuesday evening in honor of the sixteenth anniversary of the birth of their daughter, Mrs. Farnsworth.

The Tuesday evening meeting of the

Paternal Brotherhood was held at a social session during which musical numbers were served. There were a number of visitors from the Monterey and Redondo lodges.

Mrs. F. W. Hedgeland and Mrs. Thatcher of Chicago are at

Dwight avenue for a few weeks. Joseph Brittain of Birmingham, Ala., is passing a few weeks here.

At the meeting of the Ladies'

Whist Club Tuesday there was good attendance and conversation.

Mr. and Mrs. J. M. McDonald of

Seattle, Wash., are spending a few weeks on this beach.

Mrs. V. F. Lowry has joined the

Chicago Yacht Club, and is enjoying life on the water.

Mrs. Robert N. Kelly of Philadel-

phia is a visitor by the sea for a few weeks.

Mrs. L. Y. Vischer of Los Angeles

is here for the benefit of her health. William Stetler, who recently left his family for the coast, has decided to return, and will again take up his home here.

Santa Monica.

THE women of the Christian Temperance Union at the last meeting surprised Mrs. Hughes Lodge, their president. The day chosen to be Mrs. Lodge's birthday, after officers had been elected a delicate birthday cake was cut.

Mrs. J. L. Lee arrived in Santa

Monica with his bride, and this city will be their home. They were married at Monterey, Colo., several days ago. The bride is Miss Nellie H. Lee, daughter of that city. Mr. Lee is an expert in the United States Geological Survey.

James Long, United States Consul at

Furuk, Mex., visited here during the week. He was en route to San Francisco, and was a guest at the home of his brother.

Mr. Kneel has returned from San

Francisco, where he has been for a month. He is the guest of Mrs. J. L. Lee.

Mrs. J. P. Campbell expects to leave

for Omaha to pass the summer. She is the guest of Mrs. J. L. Lee.

## "Christ Healing the Paralytic."

The New Murillo.

great interest has been aroused in art circles in Europe and especially in Madrid, over the recent recovery from oblivion of Murillo's great painting, "Christ Healing the Paralytic," a copy of which, taken from the London Illustrated Mail, is reproduced herewith. In regard to this picture the Illustrated Mail says:

"The picture represents the 'Healing of the Paralytic,' as told in St. John's Gospel, and is one of two of the same subject; both of them were originally in Madrid, and both are now in England. In 1671 Murillo began a series of paintings for the brotherhood of the Holy Charity in Seville, of which he had himself been a lay brother since 1661, and they were hung in La Caridad, formerly the Church of St. Jorge, restored by Don Miguel Manara Vintello, by the aid of his own benevolence and that of his friends. Murillo was a personal friend of Don Miguel, and undertook to paint eleven pictures for the restored church. Three still remain there—the 'Annunciation,' the 'Infant Saviour,' and 'St. John'—the other eight were carried off by Marshal Dautin in the early years of the last century, and were part of the plunder of which the Immaculate Conception, now in the Louvre was the principal portion. One of the eight was 'Healing of the Paralytic' at the Pool of Bethesda, and lately in the possession of Mr. Tomline, of Carlton House Terrace, and now belonging to Capt. Freyman, of Orrell Park. The picture now in Bond street is a second one of the same subject, painted for the Chapel of St. Augustine, Madrid, and it is not yet known how it found its way to England. All that can be said is that it belonged to an old lady in Devonshire, from whom it went to her housekeeper, whose husband disposed of it to the man from whom Mr. Doig obtained it. It is somewhat smaller than the Caridad picture, but still as fine, and it is said that the figure of the Saviour is even superior to the newly-found canvas. Our reproduction of the picture gives but a faint idea of its beauty, for the color is necessarily lacking, though the tenderness of the design and drawing may be appreciated."

The London Leader says: "Murillo's great painting, 'Christ Healing the Paralytic,' which recently came into the possession of Mr. Doig and Company, of New Bond street, after lying in seclusion for a century, has just been returned to its owners from Buckingham Palace, whether it was sent by command of the Queen."

"Her Majesty who is an ardent admirer of the works of the old school of artists, is understood to have expressed her delight at the recovery of the painting, which she kept at the palace for five days."

"From today the picture will be on view at Messrs. Doig's galleries, and the money taken for admission to view it will be offered to the Church Army, in which both the King and Queen have manifested a deep interest."

"It is too early yet to guess as to the ultimate fate of this great work, which experts have described as finer than any of the examples of Murillo in the National Gallery. Probably it would readily fetch £10,000 put into the public market."

"Dr. Campbell Morgan, who saw the picture a day or two ago, says that the central figure is the most beautiful representation of Christ that he has ever looked upon, and a shining light in the world of art has described the lower part of the figure with less drapery as 'the most exquisite piece of drawing in existence.'"

"The picture was painted for the St. Augustine Chapel, Madrid. A second picture, slightly larger, dealing with the same subject in a different manner, was painted for the Charity Hospital, Seville. It is probable that both were stolen during the Franco-Spanish War."

"The whereabouts of the larger picture have long been known. It now adorns the picture gallery at Orrell Park, the residence of Capt. Freyman, M.P., to whom it was sent by Mr. Tomline, who purchased it from Marshal Dautin."

"The picture which has just been 'discovered' has two marks—marking across it, showing clearly that it has been doubled up—probably to lessen the difficulties in the way of its secret transport from the continent."

"The London Leader says: 'Murillo's great painting, 'Christ Healing the Paralytic,' which recently came into the possession of Mr. Doig and Company, of New Bond street, after lying in seclusion for a century, has just been returned to its owners from Buckingham Palace, whether it was sent by command of the Queen.'"

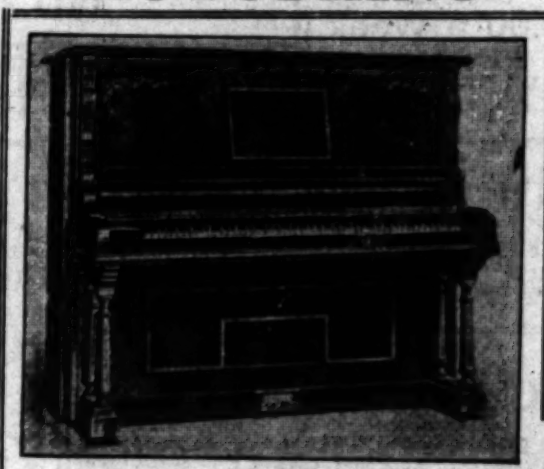

"Her Majesty who is an ardent admirer of the works of the old school of artists, is understood to have expressed her delight at the recovery of the painting, which she kept at the palace for five days."

"From today the picture will be on view at Messrs. Doig's galleries, and the money taken for admission to view it will be offered to the Church Army, in which both the King and Queen have manifested a deep interest."

## Immense Variety of Patterns

We are largest importers of Scotch woollens on the Pacific Coast, and can offer a greater variety than other tailors. Hundreds of handsome patterns here for your choosing—all the latest, swiftest novelties direct from the mills—blues, blacks, fancy chevrons and tweeds, etc., etc. Suits guaranteed in every way.

## The Most Stylish Tailoring

Skilful cutters and experienced tailors assure perfect fitting suits at the Scotch Store. Our long experience in fitting high grade clothes enables us to assure satisfactory results. There is a swing and style about our tailoring—a finish—that stamps as well dressed every man who has his clothes made here.

## Order Your Spring Suit this Week

Come in tomorrow and leave your measure. Your winter suit looks a bit seedy, and can't be altogether comfortable these warm days. You cannot fail to find just the pattern to suit you in our immense stock. And we assure you a suit that will satisfy in every way. Pay double the money and you cannot get a better, more fashionable suit. Nor quality for quality, can other tailors equal it for double the money.

The largest and  
most progressive  
tailoring house on  
the Pacific Coast.

Scotch Tailors

330 South Spring Street

Branch Stores at San Francisco, Sacramento and San Diego.

The store where  
every man can find  
suit satisfaction  
and save money.

Don't buy unsatisfactory ready-made clothes. Don't pay other tailors a great big price for your spring suit. \$15, no more, no less, at the Scotch Store will buy you a perfect fitting, thoroughly satisfactory suit.

## Save \$10 to \$15

Other tailors cannot equal Scotch Suits for less than \$25 or \$30. You can save \$10 to \$15 on your suit—enough to complete your Spring "fixings"—just by using judgment in choosing your tailor. Come in and examine the goods for yourself. No trouble to prove to your satisfaction that it is good judgment and economy to have your clothes made here.

# NEW BOOKS REVIEWED

## IMPORTANT DEVELOPMENTS

**WALTER MACARTHUR** of San Francisco, editor of the Coast Seamen's Journal, while in Portland recently, is reported by a writer in the Portland Labor Press as having said, in reference to the Citizens' Alliance of San Francisco: "It is an exploded bugaboo; a movement that no longer moves."

Mr. MacArthur is among the most conservative and intelligent of the unionists of the northern city, which may not be saying a great deal; but he has, nevertheless, the common laborer's desire for a plain life when forces are operating effectively against that by which he lives in comfort and comparative idleness. It may be that MacArthur has discarded his conservatism since the Citizens' Alliance movement has proved so disturbing to ease in high union circles and to confidence in the future of graft-providing unionism.

The typical unionist never lies harder than when things are going against him, and when MacArthur refers to the Citizens' Alliance of San Francisco as an "exploded bugaboo," we are to understand that it has proved itself a potent factor against tyrannical unionism. We have only to turn to the record for 1934 to find that this is the correct construction. In that year the Citizens' Alliance of San Francisco took some forty cases into court against vicious unionists and won them. To state what these cases were for would be to go through the list of villainies and brutally militant unionism seems to have appropriated as its own. Besides, it secured restraining orders in eight instances suits brought by the Superior Court since the first day of August; while many other cases which were filed before August 1 are still on the calendar for trial. In addition, the San Francisco Alliance has organized many of the employers into compact bodies, brought about open shop in many of the local industries, destroyed the graft system in certain quarters, shattered unions composed of vicious loafers, taught union thugs to respect the law, and judges to administer it. The alliance has made it possible for non-union workmen to earn a living; it has demonstrated the hollowness of union pretensions; cut down the tribute money of professional grafters, caused thousands of unionists to reclaim themselves from the blood-sucking allegiance and the self-appointed "leaders" to regard the future with apprehension.

If the Citizens' Alliance of San Francisco is a "movement that no longer moves," it is up to MacArthur to say what better gait he would have.

The executive committee of the Manufacturers' Association of Fall River, Mass., a few days ago sent a reply to the Textile Council in answer to the specifications of alleged discrimination in the master of hiring strikers. The manufacturers point out that they have found no cases such as the council alleged. The manufacturers say they never agreed with Gov. Douglas to discharge the men who accepted the strikers' places before the strike was declared off; on the contrary they expressly stated to the Governor before the agreement was signed that they would not discharge any competent hand then working to make room for those who had gone on strike.

The manufacturers insist that they have lived up to the agreement made with Gov. Douglas, and with their operatives through him, and are now willing to give the idle strikers work as soon as there are vacancies in the working force, of alleged discrimination in the specifications made by the council, the manufacturers found that one of their overseers had even gone so far as to find an overseer's place for one of the strikers whose place had been filled.

There is said to be more or less grumbling among the operatives, but one of their most trusted leaders made the statement, that he saw no reason to look for an outbreak during the coming summer unless there was a marked improvement in the conditions of the trade.

The next twenty days will disclose what Gov. Douglas will do in the matter of deciding what margin shall exist when an advance may be looked for, or when a wage dividend shall be paid. The margin has fallen steadily since the agreement was signed, and it does not look now as if an advance will be given. Of course the market may change before the decision is due.

But in the face of what they have suffered, the operatives are not likely to care for another contest with their employers.

In a telegram which they sent to Gov. Parsons on Tuesday, requesting that he sign the bill providing for \$3 a day for laborers on public work, the local labor agitators stated that they represented 10,000 workmen. They might just as well have made it 50,000, while they were at it, for there would have been as much truth in that as in the other. They cannot show that they represent even 5000, including every unionist in the city; and if they were to be confined to the actual unionists who accept them as their representatives, they could not produce 2000. They would be doing well if they could muster 1000 who would recognize their official existence.

These self-dubbed "leaders" are constantly striving to make it appear that the unionists are growing in numbers, and if we were to accept the statements they make from time to

## SHUT OFF THE MILK SUPPLY.

**Infamous Conspiracy Against Cheap Milk.**

**Scheme to Coerce Milkmen's Union Into Plot.**

**Would Make Cows Go Dry and Ruin Dairies.**

FROM OUR OWN CORRESPONDENT.  
SAN FRANCISCO, March 10.—When a trust and the unions join hands it is understood that the people must suffer. In San Francisco the milk trust and the Milk Wagon Drivers' Union have joined for the purpose of increasing the price of the commodity, and the significantly the poorer classes, must be the losers in the combination. It is a foregone conclusion that the combination is meant for the injury of the people who have to depend on the trust for their milk.

But under present conditions there can be little lasting harm done to the community. The price of milk goes to high figures, and the people, especially the poorer classes, are without the milk, but there is always the possibility that some person or corporation may step in and cut the price to a living basis. So long as there is no further combination there can be no permanent harm. And so long as the combination is held in its present bound a strike cannot cause more than a temporary cessation of supply.

But Djeau and the milk trust, better known as the Milk Dealers Association, are not content to rest with the present condition. Djeau, who is the walking delegate of the Milk Wagon Drivers' Union, and is paid agent of the milk trust, has been working for months to get the Milk Wagon Drivers' Union to combine under one union with the Milk Wagon Drivers' Union. The Milk Wagon Drivers' Union, however, has refused to do so, and has taken action to prevent it. But all money looks alike to the temple promoters, and although they have "no use for the locomotive engineers," it is different with their money.

The report of the visit, which appeared in the Examiner, did not say the promoters received any money; but why should they? The labor temple, should it ever be built, could be of no service to the locomotive engineers. It is extremely doubtful whether they would be allowed to use it, or even to enter it; on the other hand, it is just as doubtful, if not more so, whether the locomotive engineers would want to.

It appears that Maler & Zobelet, who "laid down" once more to the unionists, the latter announced Thursday that all the differences had been settled and the "boycott" removed from the product of the brewing company. Maler & Zobelet have notoriously become so easy a mark for the unionists that they are pestered by them with objections and demands which they would never think of making to any employer with a particle of independence. It is a well-known fact—though Maler & Zobelet don't seem to be aware of it—that the local unionists are prepared these days to make almost any concession, provided they are allowed to keep their jobs, and the employer who surrenders to them cannot expect the respect of an independent, law-abiding community.

**PAINT ON THE WINDOWS.**  
Some of the institutions on Japanese street are peculiar to that country. One of these is a smear of paint across the windows of third-class carriages. This is made necessary because thousands of native travelers in Japan, accustomed only to paper walls for letting in light, have no knowledge of glass. Its utter transparency leads them to believe that the window is simply a hole in the side of the car. With painful results many native passengers have stupidly attempted to stick their heads through the glass.

For a long time ambulances from receiving hospitals had to meet many trains arriving in Japanese cities, and hence the streak of paint as a warning to the Oriental farmer that there is something more than atmosphere in the window.—[Answers.]

**HOW LABOR GRAFTERS ROB THE NEEDY.**  
(SPECIAL CORRESPONDENCE OF THE TIMES.)  
SAN FRANCISCO, March 10.—One of the meanest grafts that have come to light is that which is being practiced by nearly every union in San Francisco. If a man comes to San Francisco seeking work he finds himself denied because he does not belong to the union. He applies for a job and gets it. He is made to believe by an individual who announces himself as the business agent of the union.

## CO-OPERATIVE MILK.

Much attention is being given in these letters to the milk situation, but there is one more reason for it. It is one of the most vital questions in the labor situation, and while it appears to be a fight between unions, it is really an affair in which the unionists are the losers. The Milk Wagon Drivers' Union is involved in the settlement of this question the purchasing classes are being ground as between millstones, and on the outcome of the fight the future of the milk trust is at stake.

The cooperative store started by the Milk Wagon Drivers' Union is charging less money than the trust. The Milk Dealers' Association is determined to put a stop to this under-selling, and the end result will be that the unionists of the trust and of the union which is working with it. The matter was so important that Djeau took his union back to the Labor Council, and the Milk Wagon Drivers' Union is not friendly to the Milk Wagon Drivers' Union and so far has shown no disposition to take part in the trouble.

The Milk Wagon Drivers' Union is not friendly to the Milk Wagon Drivers' Union and so far has shown no disposition to take part in the trouble. The Milk Wagon Drivers' Union is not friendly to the Milk Wagon Drivers' Union and so far has shown no disposition to take part in the trouble. The Milk Wagon Drivers' Union is not friendly to the Milk Wagon Drivers' Union and so far has shown no disposition to take part in the trouble.

Djeau has taken this as the central idea of his campaign, and is demanding the right of the milk trust to drive wagons. He insists that the milk trust be ordered to stay off the wagons of the cooperative store, and is forcing the Milk Wagon Drivers' Union to do so. He is forcing the Milk Wagon Drivers' Union to do so. He is forcing the Milk Wagon Drivers' Union to do so.

It is no longer a matter of the Milk Wagon Drivers' Union, but a matter of the Milk Wagon Drivers' Union. It is no longer a matter of the Milk Wagon Drivers' Union, but a matter of the Milk Wagon Drivers' Union. It is no longer a matter of the Milk Wagon Drivers' Union, but a matter of the Milk Wagon Drivers' Union.

**IT NO LONGER FEARS UNION.**  
GAS AND ELECTRIC CO. TURNS DOWN GAS WORKERS.

Refuse to Enter Into Any Agreement With the Business Agent or Anybody Else Representing the Union, Will Deal Only With Employees as Such.

FROM OUR OWN CORRESPONDENT.  
SAN FRANCISCO, March 10.—One of the most significant indications of the waning influence of labor unions was shown this week in the action of the Gas and Electric Co. The company in its reply to the Gas Workers' Union.

Some two months ago the Gas Workers' Union demanded that every body employed by the gas company should become a member of the union. It made no difference to the gas workers what other union the employees might belong to. It was made obligatory that they should be a member of the Gas Workers' Union. A test case was made by demanding that the head engineer at one of the plants of the corporation should become a member of the Gas Workers' Union. The engineer happened to be the president of the Gas Workers' Union, and he absolutely refused to make the change. In order to coerce him, the Gas Workers' Union made a demand on the gas company that it should compel the engineer to join the Gas Workers' Union. The company was powerless in the matter. A strike was immediately ordered and the plant was tied up for a few hours. The company was forced to back down, and the engineer was allowed to remain in his position.

**A DIFFERENT STORY NOW.**  
But it is a different story now. The company has so intimidated itself that it no longer fears the Gas Workers' Union, and has thrown down the gauntlet. The Gas Workers' Union does not take it up, and in such a state of blue funk that it is afraid the company will carry the war into the ranks of the union.

The agreement between the gas company and the Gas Workers' Union expired February 1. The union made no demand for wages or hours, but presented a duplicate of the old agreement for the signatures of the officers of the company. Much to the surprise of the business agent of the union, the company refused to sign anything to do with him. The superintendent of the company sent word to the union that it wanted all communications to the company put in writing, showing exactly what the union demanded.

## CRIME DUTY OF UNIONS?

WANT CONNECTICUT CONSPIRACY LAW REPEALED.

Opposed to It Because It Is a Menace to Organized Labor—Implies That Crimes are Among Its Duties. Cannot Expect Sympathy Among Enlightened People.

The Trades Council of New Haven, made up of delegates of the different labor unions of that city, is trying to secure the repeal of one of the most important provisions of the conspiracy law of Connecticut, on the ground that it is "a menace to organized labor."

The full text of the open-shop declaration follows: "The industrial conditions of Fresno demand an explanation of our position and contemplated action, and for that purpose we wish to make a statement. After the trade in the plumbing industry of our city was made a special issue by the trades council for the purpose of interfering with other mechanics not directly affected by the plumbing trouble, and who had and have no complaint to wages received, hours worked or treatment of employer, it was deemed proper that the time be taken to make the proper time to demand and enforce the rights of the employees. The master plumbers' union had been organized, and their business injured until it became necessary for us to issue a demand which is voiced in the following section of their bylaws, article IX:

"It is hereby mutually agreed by each and every member of this association, that they, and each of them, will, at all times, accept and perform any and all plumbing and tinning work which may be tendered them under any and all conditions, provided they are paid for same."

It is hereby mutually agreed by each and every member of this association, that they, and each of them, will, at all times, accept and perform any and all plumbing and tinning work which may be tendered them under any and all conditions, provided they are paid for same."

It is hereby mutually agreed by each and every member of this association, that they, and each of them, will, at all times, accept and perform any and all plumbing and tinning work which may be tendered them under any and all conditions, provided they are paid for same."

## OPEN SHOP DECLARATION.

The Master Plumbers of Fresno Issue One.

Will Have Nothing More to Do With the Unions.

Bitter Fight is in Prospect in Rain Town.

Growing out of the fight between the plumbers and master plumbers at Fresno has come an open-shop movement. The business men interested in the building trades have signed an agreement to maintain the open shop, and this agreement with a list of signatures is printed below. The master plumbers have obtained the upper hand, and according to F. O. Foin the following clause signed by all the plumbing shops in Fresno will be the rule in the future:

"It is hereby mutually agreed by each and every member of this association, that they, and each of them, will, at all times, accept and perform any and all plumbing and tinning work which may be tendered them under any and all conditions, provided they are paid for same."

"It is hereby mutually agreed by each and every member of this association, that they, and each of them, will, at all times, accept and perform any and all plumbing and tinning work which may be tendered them under any and all conditions, provided they are paid for same."

"It is hereby mutually agreed by each and every member of this association, that they, and each of them, will, at all times, accept and perform any and all plumbing and tinning work which may be tendered them under any and all conditions, provided they are paid for same."

"It is hereby mutually agreed by each and every member of this association, that they, and each of them, will, at all times, accept and perform any and all plumbing and tinning work which may be tendered them under any and all conditions, provided they are paid for same."

## Popular Mohair Dress Goods

### Specially Featuring the Much Wanted Checked Patterns

Mohairs are among the most serviceable of textiles and they owe their popularity this season very greatly to their use by the fair automobilists, especially those of the fashionable set, for it has already been recorded in the newspapers everywhere that at the recent Florida automobile tournament that Mrs. W. K. Vanderbilt, Jr., wore a mohair costume more frequently than of any other material. So that as it may, Mohairs have enough good points to make them fashionable, and Hamburger's are showing the largest lines in the city.

### Fancy Mohair Suitings at 50c

Fifty pieces to select from, 35 inches wide; Brilliantine and Sicilian weaves; brown, navy, green, tan, red, gray, cream and black in plain colors; and green, blue, brown and black grounds with small wavy figures, dots and fancy shot effects. Others sell no better at 65c.

### 75c Mohair Sicilians yd 59c

Fifty pieces of this scarce popular fabric in navy, myrtle, golden and wood brown, tan, red, gray and black; crisp, lustrous, silk finished; with sides alike; is 52 inches wide, with width particularly desirable for this season's circular skirts.

### New English Mohairs at 75c

Are in Sicilian and Brilliantine weaves; 44 inches wide; are lustrous finished; equally as pretty as silk; wavy sides alike; colorings of Chausser and myrtle green, red, tan, navy, two shades of brown, gray, cream and black. They are qualities that are worth much more than the introductory price.

### 44-in. Imported Mohairs \$1

65 pieces in every new effect, consisting of neat shepherd checks, Scotch Tartan checks, broken invisible checks, fancy and two tone stripes, small figures and overshot effects, salt and pepper patterns and hair-line checks on green, blue, gray, cream, brown and black grounds; are of Sicilian and Brilliantine weaves.

### New English Mohairs yd \$1

44 inches wide; Brilliantine and Sicilian weaves; of light weight; silk finished; wavy and durable; both sides alike; colorings brown, blue, green, gray, tan, red, cream and black, and are of a good quality Mohair wool; 60 pieces to select from.

### Novelty Mohair Suitings \$1.50

30 pieces only of these high grade textiles in Sicilian and Brilliantine weaves; colorings gray, reeds, Paraisol, cadet, navy, tan, brown and black grounds with small woven dots and figures; also plain and broken checks, fancy stripes, Tartan checks and invisible plaids. They are 46 inch materials.

SECOND FLOOR

## House Cleaning New Floor Coverings

An elegant chance to furnish beach cottage or city home. Floor coverings are among the practical things that every housekeeper must supply and where you can save from one fifth to one fourth, in some cases more, over what you would pay in the regular way, you certainly will patronize the firm that makes the offer. The following items should meet your favor.

### 9x12 ft. Kashmir Rugs \$9.95

This is a handsome rug—one of the newest, most up-to-date, and is in Oriental colorings and patterns; perfectly reversible; will give good service and is positively worth \$12.00.

### 9x12 ft. Velvet Rug at \$20.00

The same offered in most stores at \$25.00; has long plush pile; several choice colorings to select from; suitable for any room, and is one of the very best wearing rugs on the market.

### Union Art Squares at \$4.89

They are of a union wool mixture; have all the appearance of a fine wool rug; are just the thing for dining and living rooms; are in a choice line of patterns and colorings and cannot be duplicated elsewhere under \$5.50.

### 36x68 in. Smyrna Rugs \$2.95

They are strictly all wool; very best make; in the handsome La Art Nouveau designs; are perfectly reversible and differ materially from the ordinary kinds, as they are 36x68 inch size and would not be overpriced at \$4.00.

### Third Floor New Cork Linoleum yd. 50c

Positively the greatest offering in this line of floor coverings ever made in the city. We have just received a consignment of 3000 yards; the very best in make, newest patterns and colorings, and at the price you cannot afford to miss supplying your wants.

### Admister Carpets yd. \$1.00

3000 yards of extra fine Admister carpets, made by Alexander Smith & Sons; famous the world over; not a yard of them an old pattern or coloring, and they come with or without borders. Are the grades sold elsewhere at \$1.35.

FOURTH FLOOR

## No Better Gloves Than These

At the prices specially featured for Monday's selling, the following items are certainly unequalled in value. You will find the qualities and styles good in every respect.

## The Wonderful "Victor" Talking Machine

HIS MASTER'S VOICE

The Improved "Victor" Talking Machine, on account of its superior merit, has received gold medals at all of the late National and International Expositions. The new "Victor" differs from all others in the remarkable fidelity with which it produces the most delicate tones of both vocal and instrumental music. Always ready to entertain you; never tires. A home attraction of the first merit.

We carry the largest assortment of new records, including the famous songs of Melba, Tarnagno, Gadecki, Sembrich, and other celebrated artists, as sung by them in person for the "Victor"; also the popular marches, and orchestra music by Sousa, Pryor, and others. Popular concert in our Basement Salesroom daily from 10 to 12 a.m. and 2 to 4 p.m.
